Instrumen yang digunakan untuk *celebrity worship* adalah *Celebrity Attitude Scale (CAS)*, lalu untuk *problematic internet use* menggunakan *Generalized Problematic internet use Scale 2 (GPIUS2)* dan untuk prokrastinasi akademik menggunakan *Academic Procrastination Scale (APS)*. Hasil pengolahan menggunakan Rasch dan SPSS menunjukkan adanya hubungan antara *celebrity worship* dengan prokrastinasi akademik yang dimediasi *problematic internet use*. Hasil dari penelitian terbukti bahwa *problematic internet use* berhasil memediasi hubungan *celebrity worship* dan prokrastinasi akademik. *Celebrity worship* dan *problematic internet use* bersama-sama berkontribusi sebanyak 12,1% dalam prokrastinasi akademik mahasiswa Universitas Pendidikan Indonesia penggemar K-Pop.

Kata kunci: *celebrity worship*, *problematic internet use*, prokrastinasi akademik.

ABSTRACT

Procrastination is a behavior everyone does, including students. It is often found that students procrastinate on college assignments because of distractions, one of which is internet distraction. The internet is often called the window to the world because from the internet we can explore a lot of things the world offers. One of the most current popular phenomenons is the phenomenon of liking K-Pop idols or more commonly known as hallyu. Many people use the internet excessively, causing them to experience problematic internet use while browsing around details regarding the idols that they often procrastinate their task and assignments. This study aims to investigate the relationship between celebrity worship and academic procrastination mediated by problematic internet use in K-Pop fan students at Indonesia University of Education. The method used in the research is quantitative with a correlational design, for sampling techniques using convenience sampling with a total of 484 undergraduate students. The instrument used for celebrity worship is Celebrity Attitude Scale (CAS), then for problematic internet use using Generalized Problematic internet use Scale 2 (GPIUS2) and for academic procrastination using Academic Procrastination Scale (APS). The processing results using Rasch and SPSS showed a relationship between celebrity worship and academic procrastination mediated by problematic internet use. The results of the study proved that problematic internet use successfully mediated the relationship between celebrity worship and academic procrastination. Celebrity worship and problematic internet used together contribute 12.1% to the academic procrastination of Indonesia University of Education students who are K-Pop fans
