## LEMBAR PERNYATAAN

Dengan ini saya menyatakan bahwa tesis dengan judul:

**PENINGKATAN KEMAMPUAN *STATISTICAL LITERACY* DAN  
PERUBAHAN *SELF-REGULATED LEARNING* SISWA SMP DENGAN  
*PROJECT-BASED LEARNING***

Beserta seluruh isinya adalah benar-benar karya saya dan bukan hasil penjiplakan atau plagiasi dengan cara yang tidak sesuai dengan etika ilmu yang berlaku dalam masyarakat keilmuan.

Atas pernyataan yang saya buat, saya siap menanggung segala resiko atau sanksi jika di kemudian hari ditemukan adanya pelanggaran terhadap etika keilmuan atau adanya klaim dari pihak lain terhadap keaslian karya saya.

Demikian surat pernyataan ini dibuat dengan sebenar-benarnya.

Bandung, Agustus 2024

## ABSTRAK

### **Febrinna Marchy. (2208171). Peningkatan Kemampuan *Statistical Literacy* dan Perubahan *Self-Regulated Learning* Siswa SMP dengan *Project-Based learning*.**

*Statistical Literacy* (SL) merupakan kemampuan penting bagi siswa di abad ke-21. Ada seruan untuk meningkatkan SL dalam kurikulum matematika karena pentingnya dalam kehidupan sehari-hari. Selain itu, guru juga perlu memperhatikan kompetensi sikap siswa, khususnya *Self-Regulated Learning* (SRL). Penelitian ini bertujuan untuk memperoleh gambaran serta menganalisis peningkatan kemampuan SL dan perubahan SRL yang memperoleh *Project-Based Learning* (PjBL) dan pembelajaran konvensional. Penelitian ini menggunakan metode kuantitatif dengan desain penelitian *quasi experiment*. Populasi dari penelitian ini adalah siswa kelas VIII di salah satu SMP Negeri di Kota Bandung tahun ajaran 2023/2024. Sampel yang diambil sebanyak 68 orang siswa kelas VIII yang terdiri dari 2 kelas. Instrumen yang digunakan dalam penelitian ini diantaranya soal tes SL dan angket SRL yang telah diuji validitas dan reliabilitasnya. Penelitian ini memperoleh temuan diantaranya: (1) Peningkatan kemampuan SL siswa yang memperoleh *project-based learning* lebih tinggi secara signifikan daripada siswa yang memperoleh pembelajaran konvensional; (2) Terdapat perbedaan peningkatan kemampuan SL yang signifikan antara siswa yang memiliki Kemampuan Matematika Awal (KMA) tinggi, sedang, dan rendah. Berdasarkan uji *post hoc* peningkatan kemampuan SL paling signifikan terjadi pada siswa dengan KMA tinggi dibandingkan dengan dua kelompok lainnya; (3) Peningkatan kemampuan SL antara siswa kelas PjBL dan kelas konvensional bervariasi untuk tiap kategori KMA siswa, tidak terdapat perbedaan yang signifikan untuk kategori KMA tinggi dan rendah, tetapi untuk kategori KMA sedang, kelas PjBL lebih efektif dibandingkan kelas konvensional. (4) Perubahan SRL siswa yang memperoleh PjBL lebih baik secara signifikan daripada siswa yang memperoleh pembelajaran konvensional; (5) Tidak terdapat perbedaan perubahan SRL siswa yang signifikan antara siswa yang memiliki KMA tinggi, sedang, dan rendah; (6) Perubahan SRL antara siswa kelas PjBL dan kelas konvensional berbeda untuk tiap kategori KMA siswa, untuk kategori KMA tinggi dan sedang, tidak terdapat perbedaan yang signifikan, namun untuk kategori KMA rendah, kelas PjBL menunjukkan perubahan SRL yang lebih signifikan dibandingkan kelas konvensional; (7) Terdapat korelasi positif sebesar 0,275 antara peningkatan kemampuan SL dan perubahan SRL, dengan koefisien determinasi 8%.

**Kata Kunci:** *Statistical Literacy, Self-Regulated Learning, Project-Based Learning*

## ABSTRACT

### **Febrinna Marchy. (2208171). Improving Statistical Literacy Abilities and Changes in Self-Regulated Learning of Junior High School Students with Project-Based Learning.**

Statistical Literacy (SL) is an essential ability for students in the 21st century. There are calls to enhance SL in the mathematics curriculum due to its importance in daily life. Additionally, teachers need to pay attention to students' attitudinal competencies, particularly Self-Regulated Learning (SRL). This study aims to obtain an overview and analyze the improvement of SL abilities and changes in SRL that receive Project-Based Learning (PjBL) and conventional learning. This study uses a quantitative method with a quasi-experimental research design. The population of this study were grade VIII students at one of the State Junior High Schools in Bandung City in the 2023/2024 academic year. The sample taken was 68 grade VIII students consisting of 2 classes. The instruments used in this study included SL test questions and SRL questionnaires that had been tested for validity and reliability. This study obtained findings including: (1) The increase in SL abilities of students who received project-based learning was significantly higher than students who received conventional learning; (2) There is a significant difference in the increase in SL abilities between students who have high, medium, and low Initial Mathematics Ability (IMA). Based on the post hoc test, the most significant increase in SL abilities occurred in students with high IMA compared to the other two groups; (3) The increase in SL ability between students in PjBL class and conventional class varies for each category of student IMA, there is no significant difference for the high and low IMA categories, but for the medium IMA category, PjBL class is more effective than conventional class. (4) The change in SRL of students who receive PjBL is significantly better than students who receive conventional learning; (5) There is no significant difference in change in SRL of students between students with high, medium, and low IMA; (6) The change in SRL between students in PjBL class and conventional class is different for each category of student IMA, for the high and medium IMA categories, there is no significant difference, but for the low IMA category, PjBL class shows a more significant change in SRL than conventional class; (7) There is a positive correlation of 0.275 between the increase in SL ability and the change in SRL, with a determination coefficient of 8%.

**Keywords:** *Statistical Literacy, Self-Regulated Learning, Project-Based Learning*

## KATA PRAKATA

Puji syukur kehadirat Allah SWT karena atas rahmat dan lindungan-Nya penulis mampu menyelesaikan penulisan tesis yang berjudul “**Peningkatan Kemampuan *Statistical Literacy* dan Perubahan *Self-Regulated Learning* Siswa SMP dengan *Project-Based learning*” dengan baik. Penulisan tesis ini didasari atas pemikiran bahwa saat ini kita hidup di era data terbuka, Statistik disebarkan secara luas di media, kemampuan SL menjadi sangat penting dan perlu dipelajari oleh semua orang seperti halnya memahami data, menafsirkan dan mengevaluasi secara kritis berbagai informasi statistik serta bekerja dengan berbagai bentuk data. Kemampuan ini memungkinkan siswa untuk mengembangkan kemampuan *statistical literacy* dan mempersiapkan mereka untuk sukses dalam dunia kerja yang semakin tergantung pada teknologi dan informasi statistik. Selain itu, guru juga perlu memperhatikan kompetensi sikap siswa, khususnya *Self-Regulated Learning* (SRL)**

Tesis ini mengkaji perolehan gambaran serta menganalisis peningkatan kemampuan SL dan perubahan SRL yang memperoleh pembelajaran dengan *project-based learning* dan pembelajaran konvensional, serta menganalisis peningkatan kemampuan SL dan perubahan SRL siswa berdasarkan KMA dengan *project-based learning* dan pembelajaran konvensional.

Penulis berharap tesis ini dapat memberikan informasi yang bermanfaat bagi para pembaca yang tertarik untuk mengembangkan kemampuan *statistical literacy* dan *self-regulated learning* siswa melalui *Project-based learning*.

## UCAPAN TERIMA KASIH

Penulis ingin mengungkapkan rasa syukur dan terima kasih yang mendalam kepada Allah SWT, sumber segala kebijaksanaan dan kemurahan-Nya, yang telah memberikan petunjuk dan kekuatan dalam menyelesaikan perjalanan penyusunan tesis ini. Tesis ini adalah buah kerjasama dan dukungan dari berbagai pihak yang tak terhitung, dan penulis ingin menyampaikan apresiasi yang tulus kepada mereka. Oleh karena itu, dengan penuh kerendahan hati, penulis ingin menyampaikan ucapan terima kasih kepada:

1. Bapak Dr. Bambang Avip Priatna Martadiputra, M.Si., dan Ibu Dr. Elah Nurlaelah, M.Si. selaku pembimbing I dan II, yang telah memberikan bimbingan, motivasi, dan arahan yang tak henti-hentinya selama penelitian ini.
2. Ketua Prodi Magister Pendidikan Matematika, Prof. Al Jupri, S.Pd., M.Sc., Ph.D., terima kasih atas dukungan dan bantuan yang diberikan dalam proses penulisan tesis.
3. Dekan FPMIPA UPI, Bapak Prof. Dr. Tatang Herman, M.Ed., terima kasih atas segala bantuan yang telah diberikan demi kelancaran penulisan tesis ini.
4. Seluruh dosen dan staf tata usaha di Prodi FPMIPA dan sekolah pascasarjana Universitas Pendidikan Indonesia yang telah memberikan kontribusi positif.
5. Kepala SMP Negeri 5 Bandung, Guru, dan Staf, yang memberikan penulis kesempatan dan kerjasama yang diberikan dalam pelaksanaan penelitian di sekolah.
6. Kedua orang tua, yang senantiasa memberikan dorongan baik moril maupun materil kepada penulis.
7. Sahabat dan teman-teman dekat yang senantiasa menjadi penyemangat selama perjalanan penulisan tesis.
8. Siswa-Siswi Kelas VIII SMP Negeri 5 Bandung yang telah berkontribusi dan partisipasi dalam penelitian, semoga hasilnya bermanfaat bagi perkembangan pendidikan.
9. Semua Pihak yang turut membantu, namun tidak dapat disebutkan satu per satu, terima kasih atas segala bantuan dalam penyusunan tesis ini.

Semoga Allah SWT senantiasa melimpahkan rahmat dan karunia-Nya kepada semua pihak yang telah membantu dalam perjalanan penyusunan tesis ini. Amin.
