KATA PENGANTAR

Segala puji dan syukur dipanjangkan kepada Allah *subhanahuwata'ala*, yang hanya dengan izin dan kehendak-Nya peneliti dapat menyelesaikan penelitian berjudul “Pengaruh Frekuensi Penggunaan Pornografi terhadap Gejala *Problematic Pornography Use* yang Dimoderasi oleh *Scrupulosity* pada *Emerging Adults* di Jawa Barat”.

Penelitian ini berfokus pada penelusuran pengaruh dari frekuensi penggunaan pornografi terhadap gejala *problematic pornography use*, serta bagaimana *scrupulosity* memoderasi pengaruh dari variabel tersebut. Hasil dari penelitian ini diharapkan dapat menambah wawasan terkait faktor-faktor risiko dari gejala *problematic pornography use*, terutama pada *emerging adults* di Jawa Barat.

Peneliti menyadari bahwa karya ini masih jauh dari kata sempurna. Oleh karena itu, kritik dan saran diperlukan untuk mengembangkan kualitas dari penelitian ini di masa mendatang.

Semoga penelitian ini dapat memberikan manfaat dan menjadi referensi yang berguna bagi perkembangan ilmu psikologi.

Bandung, Agustus 2024

Penulis

UCAPAN TERIMA KASIH

Penulis menerima berbagai bantuan dan dukungan selama penyelesaian penelitian. Penulis mengucapkan terima kasih kepada:

1. Ibu Dr. Sri Maslihah, M.Psi., Psikolog, selaku Ketua Program Studi Psikologi Universitas Pendidikan Indonesia sekaligus pembimbing pertama penulis dalam penelitian ini, yang selalu memberikan ilmu selama masa studi penulis, serta memberikan arahan, masukan dan dorongan dalam penyusunan penelitian ini.
2. Ibu Ismawati Kosasih, M.Si., selaku dosen pembimbing akademik serta pembimbing kedua penulis dalam penelitian, yang mendampingi penulis selama masa studi dan memberikan dukungan dan masukan dalam penyusunan penelitian.
3. Seluruh dosen dan staf Program Studi Psikologi Universitas Pendidikan Indonesia yang membantu proses pembelajaran penulis selama masa studi.
4. Kedua orang tua beserta keluarga besar penulis yang selalu memberikan dukungan finansial dan materi hingga penulis menyelesaikan masa studi.
5. Seluruh pihak yang terlibat dalam masa studi dan penyelesaian studi penulis yang tidak dapat disebutkan satu per satu.

ABSTRAK

Tsabitah Nurulhaq (2009612). *Pengaruh Frekuensi Penggunaan Pornografi terhadap Gejala Problematic Pornography Use yang Dimoderasi oleh Scrupulosity pada Emerging Adults di Jawa Barat.* Skripsi. Program Studi Psikologi. Fakultas Ilmu Pendidikan. Universitas Pendidikan Indonesia. (2024).

Penelitian ini bertujuan untuk mengetahui peran moderasi dari *scrupulosity* dalam pengaruh frekuensi penggunaan pornografi terhadap gejala *problematic pornography use* pada *emerging adults* di Jawa Barat. Penelitian prediktif dilaksanakan untuk menguji model moderasi dari penelitian ini. Responden berjumlah 402 individu yang berusia 18-25 tahun yang berdomisili di Jawa Barat dan pernah menggunakan pornografi setidaknya sekali selama enam bulan terakhir, yang diambil menggunakan teknik *sampling* purposif. Uji model moderasi dilakukan menggunakan analisis linear berganda dalam aplikasi Jamovi. Hasil uji model moderasi menunjukkan pengaruh interaksi yang signifikan, dimana frekuensi penggunaan pornografi memengaruhi gejala *problematic pornography use* secara lebih kuat ketika *scrupulosity* berada satu standar deviasi di atas *mean* dibandingkan ketika berada satu standar deviasi di bawah *mean*. Hasil penelitian menunjukkan peran dari *scrupulosity* sebagai moderator pada pengaruh dari frekuensi penggunaan pornografi terhadap gejala *problematic pornography use* pada *emerging adults* di Jawa Barat. Hal ini menunjukkan bahwa seseorang yang menggunakan pornografi namun memiliki konflik moral dan kecemasan terkait penggunaannya tersebut memiliki kerentanan yang lebih tinggi bahwa penggunaan pornografinya akan berubah menjadi problematik, yang akan menghalangi seseorang untuk terlibat sepenuhnya dalam kehidupan.

Kata kunci: *emerging adults*, frekuensi penggunaan pornografi, *problematic pornography use*, *scrupulosity*.

ABSTRAK

Tsabitah Nurulhaq (2009612). *The Impact of Frequency of Pornography Use on Problematic Pornography Use Symptoms Moderated by Scrupulosity among Emerging Adults in West Java.* Thesis. Psychology Program. Faculty of Education Sciences. Universitas Pendidikan Indonesia. (2024).

This study aims to determine the moderating role of scrupulosity in the impact of pornography use frequency on symptoms of problematic pornography use among emerging adults in West Java. A predictive research design was employed to test the moderation model of this study. The respondents consisted of 402 individuals aged 18-25 years in West Java who had used pornography at least once in the past six months, which were selected using purposive sampling techniques. The moderation model test was conducted using multiple linear analysis in the Jamovi. The results of the moderation model test indicated a significant interaction effect, where the frequency of pornography use influenced symptoms of problematic pornography use more strongly when scrupulosity was one standard deviation above the mean, compared to when it was one standard deviation below the mean. The results of the study demonstrate the role of scrupulosity as a moderator in the impact of pornography use frequency on symptoms of problematic pornography use among emerging adults in West Java. This suggests that individuals who use pornography but experience moral conflict and anxiety related to its use are more vulnerable to their pornography use becoming problematic, which may hinder their ability to fully engage in life.

Key words: *emerging adults, frequency of pornography use, problematic pornography use, scrupulosity.*
