BAB I PENDAHULUAN ......................................................................................................... 1
A. Latar Belakang .................................................................................................................... 1
B. Rumusan Masalah ............................................................................................................. 3
C. Tujuan Penelitian ............................................................................................................. 4
D. Batasan Masalah .............................................................................................................. 4
E. Manfaat Penelitian ........................................................................................................... 4

BAB II PEMBELAJARAN IPA MENGGUNAKAN KIT PRAKTIKUM DAN
KETERAMPILAN PROSES SAINS ....................................................................................... 5
A. Pembelajaran IPA Terpadu Tingkat SMP ..................................................................... 5
B. KIT Praktikum .................................................................................................................. 8
C. Keterampilan Proses Sains sebagai Hasil Belajar Siswa SMP ......................................... 13
D. Tinjauan Materi Pelapukan ............................................................................................. 17

BAB III METODE PENELITIAN ......................................................................................... 25
A. Metode dan Desain Penelitian ....................................................................................... 24
B. Prosedur Penelitian ......................................................................................................... 26
C. Subjek Penelitian ............................................................................................................ 30
D. Lokasi dan Waktu Penelitian ........................................................................................ 30
E. Instrumen Penelitian ....................................................................................................... 30

Pipih Nurhayati, 2014
Pengembangan Kit Praktikum Ipa Terpadu
Tema Pelapukan Untuk Membangun Keterampilan Proses Sains Siswa Smp
