ABSTRAK .............................................................................................................................................. i
KATA PENGANTAR ............................................................................................................................ ii
UCAPAN TERIMA KASIH ....................................................................................................................... iii
DAFTAR ISI ............................................................................................................................................... vi
DAFTAR TABEL ........................................................................................................................................ vii
DAFTAR GRAFIK ....................................................................................................................................... viii
DAFTAR LAMPIRAN ............................................................................................................................... x

BAB I PENDAHULUAN ............................................................................................................................. 1
A. Latar Belakang Masalah ....................................................................................................................... 1
B. Identifikasi Masalah .............................................................................................................................. 4
C. Batasan Masalah ................................................................................................................................... 5
D. Rumusan Masalah ................................................................................................................................. 5
E. Tujuan dan Kegunaan Penelitian ......................................................................................................... 5
F. Struktur Organisasi Skripsi .................................................................................................................. 6

BAB II LANDASAN TEORI ......................................................................................................................... 8
A. Konsep Dasar Ketunarunguan ............................................................................................................. 8
   1. Pengertian Tunarungu ....................................................................................................................... 8
   2. Klasifikasi Anak Tunarungu ............................................................................................................ 9
   3. Dampak Ketunarunguan .................................................................................................................. 11
B. Konsep Dasar Membaca Pemahaman ................................................................................................. 16
   1. Pengertian Membaca Pemahaman .................................................................................................... 16
   2. Kemampuan Membaca Pemahaman Anak Tunarungu ................................................................. 21
C. Media Pembelajaran ............................................................................................................................. 23
D. Komik Sebagai Media Pembelajaran .................................................................................................. 24
E. Penggunaan Media Komik Dalam Meningkatkan Kemampuan Membaca Pemahaman Siswa Tunarungu Kelas D3 Sdlb-B Sukapura Bandung ................................................................. 26
F. Penelitian Yang Relevan ..................................................................................................................... 27
BAB III METODE PENELITIAN ........................................ 30
A. Variabel Penelitian ........................................ 30
   1. Definisi Konsep Variabel .............................. 30
   2. Definisi Operasional Variabel ....................... 31
B. Metode Penelitian ........................................ 33
   1. Desain Penelitian .................................... 34
   2. Prosedur Penelitian ................................. 35
C. Populasi, Sampel, dan Lokasi Penelitian ............. 35
   1. Populasi Penelitian .................................. 35
   2. Sampel Penelitian ................................. 36
   3. Lokasi Penelitian .................................. 37
D. Pengembangan Instrumen Penelitian ................... 37
E. Uji Coba Instrumen ................................... 39
   1. Uji Validitas ........................................ 39
   2. Uji Reliabilitas .................................... 40
F. Teknik Pengolahan Data ................................ 41

BAB IV HASIL PENELITIAN DAN PEMBAHASAN .............. 43
A. Hasil Penelitian ........................................ 43
   1. Deskripsi Data Penelitian ........................... 43
   2. Pengujian Hipotesis ................................ 48
B. Pembahasan ............................................ 50

BAB V SIMPULAN DAN SARAN ................................. 55
A. Simpulan ................................................ 55
B. Saran .................................................. 56

DAFTAR PUSTAKA ............................................ 58

LAMPIRAN

G. Kerangka Pemikiran ..................................... 28
H. Hipotesis .................................................. 29
