 PERNYATAAN ................................................................. i
 ABSTRAK ........................................................................ ii
 KATA PENGANTAR .......................................................... iv
 UCAPAN TERIMA KASIH .................................................. v
 DAFTAR ISI ...................................................................... vii
 DAFTAR TABEL .................................................................. ix
 DAFTAR GAMBAR .............................................................. x
 DAFTAR BAGAN ................................................................. xi

BAB I PENDAHULUAN ................................................................ 1
 A. LatarBelakangMasalah ......................................................... 1
 B. Rumusan Masalah ............................................................. 9
 C. TujuanPenelitian ............................................................ 9
 D. ManfaatPenelitian ............................................................ 9
 E. BatasanPenelitian ............................................................. 9
 F. DefinisiIstilah ................................................................. 10

BAB II KAJIAN PUSTAKA, KERANGKA PEMIKIRAN, DAN
HIPOTESIS PENELITIAN ....................................................... 11
 A. KajianPustaka ............................................................... 11
 1. HakikatPendidikanJasmani ........................................... 11
 2. HakikatBelajar .............................................................. 13
    a. PengertianBelajar ..................................................... 13
    b. TujuanBelajar ........................................................ 14
 3. HakikatSepakbola .......................................................... 15
 4. HakikatSoccer Like Games ............................................ 19
    a. PengertianSoccer Like Games ................................ 19
    b. FasilitasSoccer Like Games ...................................... 20
    c. ManfaatSoccer Like Games ..................................... 20
 5. HakikatSikapSportif ....................................................... 21
    a. PengertianSikapSportif ......................................... 21
    b. ManfaatSikapSportif ............................................. 22

BAB III METODE PENELITIAN

A. Metode Penelitian ................................................................................. 32
B. Desain Penelitian .................................................................................. 33
C. Populasidan Sampel ............................................................................. 36
   1. Populasi ............................................................................................. 36
   2. Sampel ................................................................................................ 36
D. Instrumen Pengumpulan Data ............................................................... 38
   1. Penyusunan Instrumen ...................................................................... 39
   2. Uji-coba Instrumen .......................................................................... 41
   3. Analisa Instrumen ........................................................................... 42
      a. Penentuan Nilai Skala .................................................................. 42
      b. Memilih Pernyataan Terbaik ......................................................... 43
      c. Hasil Uji-coba Instrumen .............................................................. 43
      d. Hasil Uji Validitas ........................................................................ 43
      e. Uji Reliabilitas Instrumen ............................................................. 46
E. Prosedur Pengolahan Data ................................................................. 47
   1. Menghitung Nilai Rata-rata ............................................................... 47
   2. Mencari Simpangan Baku ................................................................. 48
   3. Uji Normalitas Data ......................................................................... 48
   4. Pengujian Homogenitas Dua Variansi ............................................ 49
   5. Pengujian Hipotesis ........................................................................ 50

BAB IV HASIL PENELITIAN DAN PEMBAHASAN...................................... 52

A. Pemaparan Data Penelitian ................................................................. 52
   1. Hasil Perhitungan Skor Rata-rata dan Simpangan Baku .......... 52
   2. Hasil Uji Normalitas ....................................................................... 53
   3. Hasil Uji Homogenitas ................................................................. 53
   4. Hasil Uji Hipotesis ......................................................................... 54
B. Pembahasan Hasil Penelitian ............................................................. 55

BAB V KESIMPULAN DAN SARAN .......................................................... 62

A. Kesimpulan .......................................................................................... 62
B. Saran .................................................................................................... 62
