DAFTAR TABEL .......................................................................................................... vii
DAFTAR GAMBAR ..................................................................................................... ix

BAB I PENDAHULUAN
A. Latar Belakang Masalah ........................................................................................... 1
B. Rumusan Masalah .................................................................................................... 4
C. Tujuan Penelitian ..................................................................................................... 5
D. Manfaat Penelitian ................................................................................................... 5
E. Hipotesis Tindakan ................................................................................................... 6
F. Definisi Operasional................................................................................................ 6

BAB II PENERAPAN METODE STUDENT TEAMS ACHIEVEMENT
DIVISION (STAD) UNTUK MENINGKATKAN HASIL
BELAJAR
A. Pembelajaran Kooperatif ...................................................................................... 7
B. Metode Student Teams Achievement Division (STAD) ...................................... 9
C. Hasil Belajar ............................................................................................................ 12
D. Pembelajaran IPS disekolah Dasar ....................................................................... 15
E. Permasalahan Sosial ............................................................................................... 17
F. Penelitian yang Relevan ......................................................................................... 19

BAB III METODOLOGI PENELITIAN
A. Metode dan Model Penelitian .............................................................................. 20
B. Lokasi dan Waktu Penelitian .............................................................................. 20
C. Subyek Penelitian ................................................................................................... 20
D. Prosedur Penelitian ............................................................................................... 21
E. Instrumen Penelitian ............................................................................................. 25
F. Analisis dan Interpretasi Data .............................................................................. 26

BAB IV HASIL PENELITIAN DAN PEMBAHASAN
A. Dekripsi Hasil Penelitian .................................................................................... 29
B. Pembahasan ........................................................................................................... 41

Trisna Ahmad Supriatna, 2014
Penerapan Metode Student Teams Achievement Division (Stad) Untuk Meningkatkan Hasil
Belajar Siswa Kelas IV Sekolah Dasar Negeri Soreang 03 Pada Mata Pelajaran Ips Materi
Permasalahan Sosial
