CHAPTER I: INTRODUCTION
1.1 Background of the Study
1.2 Aims of the Study
1.3 Research Question
1.4 The Teaching of English in the Research Site
1.5 Significance of the Study
1.6 Definitions of Key Terms
1.7 Organization of the Thesis

CHAPTER II: REVIEW OF LITERATURE
2.1 Introduction
2.2 What is Scientific Approach?
2.3 Basic Principles of Scientific Approach
2.4 Benefits of Scientific Approach
2.5 Stages of Applying Scientific Approach
2.5.1 Observing
2.5.2 Questioning
2.5.3 Experimenting
2.5.4 Associating
2.5.5 Networking/ communicating
2.6 Language Teaching Approaches
2.7 English for Specific Purposes
2.8 Related Research Reports
2.9 Criticisms towards Scientific Approach
2.10 Concluding Remark
**CHAPTER III: RESEARCH METHOD** .................................................................37
3.1 Research Question .......................................................................................37
3.2 Research Design ..........................................................................................37
3.3 Research Site and Participants ....................................................................38
3.4 Goals of the Teaching Learning Process .....................................................39
3.5 The Research Site’s Syllabus .......................................................................40
3.6 Data Collection Techniques .........................................................................41
    3.6.1 Observation .........................................................................................41
    3.6.2 Interview ...........................................................................................42
    3.5.3 Document Analysis ............................................................................43
    3.5.4 Pre-test and Post-test, Progress Test and Self-Assessment .................45
3.6 Data analysis Procedure ..............................................................................46
    3.6.1 Analysis of Data from Observation ....................................................46
    3.6.2 Analysis of Data from Interview ..........................................................47
    3.6.3 Analysis of Data from Pre-test and Post-test ......................................47
    3.6.4 Analysis of Data from Curriculum, Syllabus and Need Analysis ........48
3.7 Data Triangulation .......................................................................................48
3.8 Concluding Remarks ..................................................................................49
**CHAPTER IV: RESEARCH FINDINGS** ...............................................................50
4.1 Data from Needs Analysis, Curriculum and Syllabus of the Research Site 50
4.2 The Teaching Program (An Overview) ........................................................56
4.3 Discussion of Observation Data ..................................................................59
    4.3.1 Data from Observing Stage ...............................................................59
    4.3.2 Data from Questioning Stage ..............................................................70
    4.3.3 Data from Experimenting Stage ..........................................................75
    4.3.4 Data from Associating Stage ...............................................................83
    4.3.5 Data from Networking or Communicating Stage ..............................87
    4.3.6 Data from Progress Test and Self-assessment ....................................97
4.4 Discussion of Data from Pre-test and Post-test .........................................101
4.5 Discussion of Interview Data .....................................................................106
    4.5.1 Students’ Opinion on the Teaching Program .....................................107
    4.5.2 Students’ Opinion on Advantages of Scientific Approach ...............108
4.5.3 Students’ Opinion on Limitation or challenges of Scientific Approach 111
4.5.4 Students’ Suggestion about Improvements to the Teaching Program 114
4.6 The Effects of Scientific Approach .................................................. 115
  4.6.1 Students’ ESP Learning .......................................................... 115
  4.6.2 Students’ Participation in Class Activities ............................... 116
  4.6.3 Student’s Achievement in TOEIC ........................................... 118
4.7 Unexpected Finding ................................................................. 119
4.8 Concluding Remarks ............................................................... 119

CHAPTER V: CONCLUSION ............................................................. 121
  5.1 Introduction ........................................................................... 121
  5.2 Conclusions ......................................................................... 121
  5.3 Limitation of the Study ......................................................... 123
  5.4 Recommendation for Further Studies ................................... 125

BIBLIOGRAPHY ............................................................................. 127

APPENDICES .................................................................................. 145

APPENDIX 1: SYLLABUS OF ESP IN THE RESEARCH SITE .......... 146

APPENDIX 2: LESSON PLAN ......................................................... 149
  Appendix 2.1: Lesson Plan Meeting One ................................... 149
  Appendix 2.2: Lesson Plan Meeting Two.................................. 151
  Appendix 2.3: Lesson Plan Meeting Three ................................ 153
  Appendix 2.4: Lesson Plan Meeting Four .................................. 155
  Appendix 2.5: Lesson Plan Meeting Five ................................... 157
  Appendix 2.6: Lesson Plan Meeting Six ..................................... 159
  Appendix 2.7: Lesson Plan Meeting Seven ............................... 161

APPENDIX 3: ITEMS ON EXERCISES AND WRITTEN ASSESSMENT 165
  Appendix 3.1: Exercises on Observing Activity ....................... 165

APPENDIX 4: SCORING RUBRIC OF ROLE PLAY AND PRESENTATION 171
Rubric of Communicating activities (presenting, dialoguing, role playing) ...... 171

APPENDIX 5: SELF-ASSESSMENT FORM ........................................ 172

APPENDIX 6: OBSERVATION DATA ............................................... 174
  Appendix 6.1 Sample of Observations Notes by the Researcher .......... 174
  Appendix 6.2 Sample of Observations Notes by the Researcher’s Colleague 177
