DAFTAR ISI ..................................................................................................................... vi
DAFTAR TABEL ................................................................................................................. viii
DAFTAR GAMBAR ............................................................................................................. ix
DAFTAR LAMPIRAN ......................................................................................................... x

BAB I PENDAHULUAN .................................................................................................. 1
A. Latar Belakang ............................................................................................................... 1
B. Rumusan Masalah ......................................................................................................... 4
C. Pertanyaan Penelitian .................................................................................................. 4
D. Batasan Masalah ........................................................................................................... 5
E. Tujuan Penelitian .......................................................................................................... 6
F. Manfaat Penelitian ........................................................................................................ 7

BAB II HAKIKAT SAINS, PENTINGNYA HAKIKAT SAINS,
KOMPONEN HAKIKAT SAINS, MISKONSEPSI HAKIKAT
SAINS, KONSEP BESAR DALAM BIOLOGI DAN LEMBAR
KERJA SISWA BIOLOGI SMA ......................................................................................... 9
A. Lembar Kerja Siswa Biologi SMA ............................................................................. 9
B. Hakikat Sains ............................................................................................................... 12
C. Pentingnya Hakikat Sains dalam Pendidikan IPA ..................................................... 13
D. Komponen Hakikat Sains ......................................................................................... 14
E. Miskonsepsi Hakikat Sains ...................................................................................... 16
F. Konsep Besar Biologi .................................................................................................. 21
G. Penelitian yang Relevan .............................................................................................. 23
BAB III METODE PENELITIAN ................................................................. 25
   A. Metode dan Desain Penelitian......................................................... 25
   B. Populasi dan Sampel ....................................................................... 26
   C. Definisi Operasional......................................................................... 27
   D. Instrumen Penelitian ...................................................................... 27
   E. Prosedur Penelitian ........................................................................ 28
   F. Teknik Pengumpulan dan Analisis Data ........................................... 29
   G. Alur Penelitian ............................................................................... 31

BAB IV HASIL PENELITIAN DAN PEMBAHASAN ........................................ 32
   A. Data dan Pembahasan Hasil Analisis LKS A ..................................... 32
   B. Data dan Pembahasan Hasil Analisis LKS B ..................................... 39
   C. Data dan Pembahasan Hasil Perbandingan LKS A dan LKS B .......... 45
   D. Data dan Pembahasan Hasil Analisis Per Konsep/Bab ..................... 50
   E. Data dan Pembahasan Hasil Kuesioner Pemahaman Siswa ............. 56

BAB V SIMPULAN DAN SARAN ................................................................. 73
   A. Simpulan .......................................................................................... 73
   B. Saran ............................................................................................... 74
