DAFTAR ISI

ABSTRAK ........................................................................................................i

KATA PENGANTAR ........................................................................................iii

UCAPAN TERIMA KASIH ...........................................................................iv

DAFTAR ISI ....................................................................................................vi

DAFTAR TABEL ..............................................................................................ix

DAFTAR LAMPIRAN .......................................................................................x

BAB I PENDAHULUAN .........................................................................................1

A. Latar Belakang Masalah .................................................................1

B. Rumusan Masalah ...........................................................................5

C. Batasan Masalah ..............................................................................5

D. Tujuan Penelitian .............................................................................5

E. Manfaat Penelitian ..........................................................................5

F. Definisi Operasional .........................................................................6

BAB I KAJIAN PUSTAKA ...................................................................................7

A. Kemampuan Koneksi Matematis..................................................7

B. Teori Konstruktivis ........................................................................8

C. Problem Based Learning ..............................................................9

D. Penelitian yang Relevan ...............................................................16

Wulandari. 2014
PROBLEM-BASED LEARNING UNTUK MENINGKATKAN KEMAMPUAN KONEKSI MATEMATIS SISWA
SMA
Universitas Pendidikan Indonesia | repository.upi.edu | perpustakaan.upi.edu
E. Hipotesis Penelitian

16
BAB III METODE PENELITIAN .................................................................17
   A. Metode dan Desain Penelitian .............................................17
   B. Populasi dan Sampel ..............................................................18
   C. Variabel Penelitian ...............................................................18
   D. Instrumen Penelitian .............................................................19
      1. Instrumen Pembelajaran ....................................................19
         a. Rencana Pelaksanaan Pembelajaran (RPP) ...............19
         b. Lembar Kerja Siswa (LKS) ........................................19
      2. Instrumen Pengumpul Data (Tes) ....................................19
         a. Validitas .......................................................................20
         b. Reliabilitas ....................................................................21
         c. Daya Pembeda ..............................................................22
         d. Indeks Kesukaran .........................................................23
   E. Prosedur Penelitian .............................................................24
   F. Teknik Analisis Data .............................................................27

BAB IV HASIL PENELITIAN DAN PEMBAHASAN ..............................33
   A. Analisis Data ........................................................................33
      1. Analisis Data Hasil Tes Awal Kemampuan Koneksi
         Matematis Siswa (Pretes) ...............................................33
      2. Analisis Data Hasil Tes Akhir Kemampuan Koneksi
         Matematis Siswa (Postes) ...............................................36
      3. Analisis Data Peningkatan Kemampuan Koneksi
         Matematis Siswa (Gain) ..................................................39
B. Deskripsi Pembelajaran .......................................................... 44
   1. Problem Based Learning .................................................. 44
   2. Metode Ekspositori ............................................................. 46
C. Pembahasan Hasil Penelitian .................................................. 46

BAB V PENUTUP ............................................................................. 51
A. Kesimpulan ............................................................................. 51
B. Saran ....................................................................................... 51

DAFTAR PUSTAKA ......................................................................... 52

LAMPIRAN ..................................................................................... 54

DAFTAR RIWAYAT HIDUP ............................................................. 163
DAFTAR TABEL

Tabel 3.1  Validitas Tiap Butir Soal ................................................................. 21
Tabel 3.2  Daya Pembeda Tiap Butir Soal ..................................................... 23
Tabel 3.3  Indeks Kesukaran Tiap Butir Soal .................................................. 24
Tabel 3.4  Analytic Scoring Scale ................................................................. 27
Tabel 4.1  Statistik Deskriptif Data Tes Awal Kemampuan Koneksi
           Matematis Siswa ................................................................................. 33
Tabel 4.2  Data Uji Normalitas Skor Tes Awal ............................................. 34
Tabel 4.3  Data Uji Perbedaan Ranking Rata-rata Tes Awal ....................... 35
Tabel 4.4  Statistik Deskriptif Data Tes Akhir Kemampuan Koneksi
           Matematis Siswa ................................................................................. 36
Tabel 4.5  Data Uji Normalitas Skor Tes Akhir ............................................. 37
Tabel 4.6  Data Uji Homogenitas dan Uji t Skor Tes Akhir ......................... 38
Tabel 4.7  Statistik Deskriptif Data Indeks Gain .......................................... 40
Tabel 4.8  Data Uji Normalitas Indeks Gain ................................................... 41
Tabel 4.9  Data Uji Homogenitas dan Uji t Indeks Gain ............................... 42
DAFTAR LAMPIRAN

LAMPIRAN A (Rencana Pelaksanaan Pembelajaran)

RPP Kelas Eksperimen Pertemuan Ke-1 .................................................................54
RPP Kelas Eksperimen Pertemuan Ke-2 .................................................................62
RPP Kelas Eksperimen Pertemuan Ke-3 .................................................................68
RPP Kelas Eksperimen Pertemuan Ke-4 .................................................................76
RPP Kelas Kontrol Pertemuan Ke-1 .......................................................................84
RPP Kelas Kontrol Pertemuan Ke-2 .......................................................................86
RPP Kelas Kontrol Pertemuan Ke-3 .......................................................................88
RPP Kelas Kontrol Pertemuan Ke-4 .......................................................................90

LAMPIRAN B (Instrumen Penelitian)

Kisi-kisi Soal Tes Kemampuan Koneksi Matematis ........................................92
Soal Tes Kemampuan Koneksi Matematis .......................................................94
Alternatif Jawaban Tes Kemampuan Koneksi Matematis .................................95
Lembar Kerja Siswa 1 .........................................................................................97
Lembar Kerja Siswa 2 .........................................................................................103
Lembar Kerja Siswa 3 .........................................................................................106
Lembar Kerja Siswa 4 .........................................................................................110
LAMPIRAN C (Data Hasil Uji Coba Tes)

Data Hasil Uji Coba Instrumen Tes .................................................................114
Data Hasil Uji Coba Instrumen Tes dengan Urutan Skor .............................115
Kelas Unggul dan Kelas Bawah ..................................................................116
Validitas Butir Soal ......................................................................................117
Reliabilitas Tes ............................................................................................118
Daya Pembeda ..............................................................................................119
Indeks Kesukaran .........................................................................................119
Rekap Analisis Butir Soal ............................................................................119

LAMPIRAN D (Hasil Penelitian)

Lembar Observasi ..........................................................................................120
Data Hasil Pretes, Postes, dan Indeks Gain Kelas Eksperimen ....................124
Data Hasil Pretes, Postes, dan Indeks Gain Kelas Kontrol ..............................127

LAMPIRAN E (Hasil Uji Statistik)

Hasil Uji Statistik Data Tes Awal Kemampuan Koneksi Matematis ..........130
Hasil Uji Statistik Data Tes Akhir Kemampuan Koneksi Matematis ............131
Hasil Uji Statistik Data Gain Koneksi Matematis .........................................132

LAMPIRAN F (Hasil Pembelajaran)

Beberapa Jawaban Lembar Kerja Siswa .......................................................133
Beberapa Jawaban Tes Awal Kemampuan Koneksi Matematis ............................. 145
Beberapa Jawaban Tes Akhir Kemampuan Koneksi Matematis ......................... 151

LAMPIRAN G (Surat-Surat Penelitian)

Surat Tugas Pembimbing .................................................................................. 160
Surat Ijin Uji Instrumen dan Penelitian ............................................................. 161
Surat Telah Melaksanakan Penelitian ............................................................... 162
