DAFTAR PUSTAKA

PERNYATAAN ........................................................................................................... i
ABSTRAK ...................................................................................................................... ii
KATA PENGANTAR ...................................................................................................... iii
UCAPAN TERIMA KASIH ........................................................................................ iv
DAFTAR ISI ................................................................................................................... vi
DAFTAR TABEL ............................................................................................................ viii
DAFTAR GAMBAR ....................................................................................................... ix
DAFTAR LAMPIRAN ..................................................................................................... x

BAB I PENDAHULUAN ............................................................................................... 1
A. Latar Belakang Penelitian ......................................................................................... 1
B. Rumusan Masalah Penelitian .................................................................................. 4
C. Tujuan Penelitian ...................................................................................................... 4
D. Manfaat Hasil Penelitian ......................................................................................... 4
E. Hipotesis Tindakan .................................................................................................. 5
F. Definisi Operasional ................................................................................................ 6

BAB II PENGGUNAAN MEDIA MANIPULATIF UNTUK MENINGKATKAN PEMAHAMAN KONSEP PADA MATA PELAJARAN MATEMATIKA MATERI OPERASI HITUNG PECAHAN ........................................................................... 7
A. Pembelajaran Matematika di Sekolah Dasar ......................................................... 7
   1. Pengertian Matematika ......................................................................................... 7
   2. Pembelajaran Matematika di Sekolah Dasar ..................................................... 8
   3. Bilangan Pecahan dan Operasinya ..................................................................... 9
B. Media Manipulatif .................................................................................................... 14
   1. Pengertian Media Pembelajaran ....................................................................... 14
   2. Manfaat dan Fungsi Media Pembelajaran ....................................................... 17
   3. Macam-Macam Media Pembelajaran ............................................................... 18
   4. Dasar Pertimbangan dan Kriteria Pemilihan Media ....................................... 19
   5. Media Manipulatif ............................................................................................ 20
6. Media Manipulatif dalam Pembelajaran Matematika .................. 21
7. Kelebihan dan Kekurangan Media Manipulatif ......................... 23
C. Pemahaman Konsep .................................................................. 23
   1. Pengertian Pemahaman Konsep ........................................... 23
   2. Indikator Pemahaman Konsep ............................................. 25
D. Penelitian yang Relevan .......................................................... 26
E. Kerangka Pikir ......................................................................... 28

BAB III METODE PENELITIAN .................................................. 29
A. Metode Penelitian ..................................................................... 29
B. Model Penelitian ....................................................................... 30
C. Lokasi, Waktu dan Subyek Penelitian ....................................... 33
D. Prosedur Penelitian ................................................................. 33
E. Instrumen Penelitian ................................................................. 38
F. Pengolahan Data ........................................................................ 39

BAB IV HASIL PENELITIAN DAN PEMBAHASAN ..................... 43
A. Hasil Penelitian ........................................................................ 43
   1. Siklus I ....................................................................................... 43
   2. Siklus II ...................................................................................... 50
   3. Peningkatan Pemahaman Konsep dari Siklus I ke Siklus II .......... 56
   4. Siklus III ...................................................................................... 58
   5. Peningkatan Pemahaman Konsep dari Siklus II ke Siklus III ......... 63
   6. Peningkatan Pemahaman Konsep dari Siklus I sampai Siklus III .... 65
B. Pembahasan ................................................................................ 67
   1. Pelaksanaan Pembelajaran dengan Menggunakan Media Manipulatif .... 67
   2. Peningkatan Pemahaman Konsep Materi Operasi Hitung Pecahan ....... 70

BAB V SIMPU LAN DAN REKOMENDASI ................................. 72
A. Simpulan ....................................................................................... 72
B. Rekomendasi .............................................................................. 73
