DAFTAR TABEL ..................................................................................................... ix
DAFTAR GAMBAR ................................................................................................ x
DAFTAR LAMPIRAN .............................................................................................. xi

BAB I. PENDAHULUAN
A. Latar Belakang Penelitian ................................................................................. 1
B. Identifikasi Masalah Penelitian ........................................................................ 5
C. Rumusan Masalah ............................................................................................. 5
D. Tujuan Penelitian ............................................................................................. 6
E. Manfaat Penelitian ........................................................................................... 6
F. Struktur Organisasi Skripsi ............................................................................. 7

BAB II. KAJIAN PUSTAKA
A. Literasi Sains ................................................................................................... 9
B. Pembelajaran Berbasis Literasi Sains ............................................................... 11
C. Multimedia Pembelajaran ............................................................................... 13
D. Prinsip Pengembangan Multimedia ................................................................. 15
E. Model Pengembangan Multimedia ................................................................ 17
   1. Analysis (Analisis) ....................................................................................... 18
   2. Design (Desain) .......................................................................................... 22
   3. Development (Pengembangan) ................................................................. 23
   4. Implementation (Implementasi) ................................................................. 24
   5. Evaluation (Evaluasi) .................................................................................. 24
F. Tinjauan Materi ............................................................................................... 31

BAB III METODOLOGI PENELITIAN
A. Subjek Penelitian ............................................................................................ 41
B. Desain Penelitian ............................................................................................ 41
C. Definisi Operasional ....................................................................................... 44
D. Instrumen Penelitian ...................................................................................... 45
E. Teknik Pengumpulan Data .............................................................................. 48
F. Teknik Pengolahan Data ................................................................................ 49

PENGEMBANGAN MULTIMEDIA PEMBELAJARAN SEL VOLTA MENGUNGANAK KONTEKS BATERAI ION-LITIUM UNTUK MENINGKATKAN LITERASI SAINS SISWA SMA
Universitas Pendidikan Indonesia | repository.upi.edu | perpustakaan.upi.edu
BAB IV HASIL PENELITIAN DAN PEMBAHASAN
A. Representasi Konten Sel Volta dan Konteks Baterai Ion-Litium Dalam Multimedia yang Dikembangkan .......................................................... 53
B. Penilian Guru Terhadap Multimedia dari Segi Desain Instruksional ............ 70
C. Tanggapan Siswa Setelah Menggunakan Multimedia Pembelajaran ........... 74

BAB V KESIMPULAN DAN SARAN
A. Kesimpulan ........................................................................................................ 81
B. Saran ...................................................................................................................... 82

DAFTAR LAMPIRAN

A. Tahap Analisis.
   A.1. Penurunan Proposi Mikro-Makro Teks ......................................................... 88
   A.2. Transformasi Materi Presentasi ................................................................. 120

B. Tahap Desain
   B.1. Story Board ........................................................................................................ 159

C. Instrumen Penelitian
   C.1. Lembar Catatan Pengembangan Multimedia Pembelajaran ...................... 176
   C.2. Lembar Tanggapan dari Segi Instruksional Pembelajaran ......................... 178
   C.3. Angket Tanggapan Siswa ................................................................................ 190

D. Tahap Penilaian
   D.1. Pengolahan Data Angket dari Segi Instruksional Pembelajaran .......... 198
   D.2. Analisis Data Angket dari Segi Instruksional Pembelajaran ................. 200
   D.3. Pengolahan Data Angket Tanggapan Siswa ............................................. 202
   D.4. Analisis Data Angket Tanggapan Siswa .................................................. 204

E. Lembar Keterangan Penelitian
   E.2. Surat Keterangan Melaksanakan Penelitian .............................................. 207
   E.3. Surat Keterangan Telah Melaksanakan Penelitian ........................................ 208
