DAFTAR ISI

KATA PENGANTAR ................................................................. i
ABSTRAK ........................................................................ ii
DAFTAR ISI ..................................................................... iii
DAFTAR TABEL .................................................................. v
DAFTAR GAMBAR ................................................................ vi
DAFTAR GRAFIK ................................................................ vii

BAB I PENDAHULUAN
A. Latar Belakang Masalah ......................................................... 1
B. Identifikasi Masalah ............................................................... 3
C. Batasan Masalah .................................................................. 4
D. Rumusan Masalah ............................................................... 4
E. Tujuan dan Kegunaan Penelitian ........................................... 4
   1. Tujuan ........................................................................ 4
   2. Kegunaan Penelitian ....................................................... 5

BAB II KAJIAN TEORI
A. Tunadaksa ........................................................................ 6
   1. Definisi ....................................................................... 6
   2. Karakteristik ................................................................. 7
   3. Pengelompokan ............................................................ 8
   4. Etiologi Ketunadaksaan ................................................. 11
   5. Permasalahan Anak Tunadaksa ...................................... 13
B. Cerebral Palsy .................................................................... 15
   1. Definisi ....................................................................... 15
   2. Klasifikasi .................................................................... 16
   3. Etiologi ........................................................................ 17
   4. Dampak ........................................................................ 18
C. Teknik Latihan Graphomotor ............................................... 19
   1. Definisi ....................................................................... 19
   2. Sejarah ....................................................................... 19
   3. Komponen Graphomotor .............................................. 19
   4. Prinsip-prinsip Penerapan Teknik Latihan Graphomotor .... 21
   5. Teknik Latihan Graphomotor ......................................... 21
D. Teknik Latihan Graphomotor ............................................... 24
BAB III METODE PENELITIAN
A. Definisi Operasional Variabel.......................................................... 26
   1. Variabel Bebas (X)........................................................................ 26
   2. Variabel Terikat (Y)................................................................... 27
B. Metode Penelitian............................................................................. 27
   1. Desain Penelitian......................................................................... 27
   2. Prosedur Penelitian.................................................................... 28
C. Tempat dan Subjek Penelitian......................................................... 29
   1. Tempat Penelitian........................................................................ 29
   2. Subjek Penelitian......................................................................... 29
D. Instrumen dan Teknik Pengumpulan Data...................................... 29
   1. Instrumen Penelitian................................................................. 29
   2. Teknik Pengumpulan Data.......................................................... 33
   3. Uji Coba Instrumen.................................................................... 33
E. Teknik Pengolahan Data.................................................................. 37
   1. Analisis dalam Kondisi............................................................... 37
   2. Analisis antar Kondisi................................................................. 37

BAB IV HASIL PENELITIAN DAN PEMBAHASAN
A. Hasil Penelitian ............................................................................. 39
   1. Temuan Data Hasil Baseline-1 (A).............................................. 39
   2. Temuan Data Hasil Intervensi (B).............................................. 39
   3. Temuan Data Hasil Baseline-2 (A’),......................................... 40
   4. Hasil Skor Kemampuan Menulis Subjek................................. 41
B. Analisis Data.................................................................................. 43
   1. Analisis dalam Kondisi............................................................... 43
   2. Analisis antar Kondisi................................................................. 48
C. Pembahasan................................................................................... 51

BAB V KESIMPULAN DAN REKOMENDASI
A. Kesimpulan.................................................................................... 54
B. Rekomendasi.................................................................................. 55

DAFTAR TABEL

Tabel 3.1 Kisi-kisi Instrumen Penilaian ............................................................... 29
Tabel 3.2 Klasifikasi Analisis Reliabilitas Tes ....................................................... 35
Tabel 3.3 Hasil *Expert Judgement* ........................................................................ 35
Tabel 3.4 Hasil Uji Reliabilitas ................................................................................ 36
Tabel 4.1 Data Baseline-1 (A) .................................................................................. 39
Tabel 4.2 Data Intervensi (B) .................................................................................... 40
Tabel 4.3 Data Baseline-2 (A’) ................................................................................ 40
Tabel 4.4 Panjang Kondisi Penelitian ...................................................................... 43
Tabel 4.5 Kecenderungan Arah Skor Menulis Permulaan ......................................... 43
Tabel 4.6 Kecenderungan Stabilitas Skor Menulis Permulaan .................................. 46
Tabel 4.7 Kecenderungan Jejak Data Skor Menulis Permulaan ................................. 46
Tabel 4.8 Level Stabilitas dan Rentang Skor Menulis Permulaan .............................. 46
Tabel 4.9 Perubahan Level Skor Menulis Permulaan .............................................. 47
Tabel 4.10 Hasil Analisis dalam Kondisi Skor Menulis Permulaan ........................... 47
Tabel 4.11 Jumlah Variabel yang Diubah ................................................................. 48
Tabel 4.12 Perubahan Kecenderungan Arah dan Efeknya ......................................... 48
Tabel 4.13 Perubahan Kecenderungan Stabilitas dan Efeknya ................................. 49
Tabel 4.14 Perubahan Level Data ............................................................................ 49
Tabel 4.15 Data yang Tumpang Tindih (*Over Lap*) ............................................... 50
Tabel 4.16 Rangkuman Hasil Analisis Antar Kondisi .............................................. 51
DAFTAR GAMBAR

Gambar 3.1 Lembar Instrumen Pengukuran Kemampuan Menulis.................... 32
Gambar 3.2 Contoh Output SPSS 20 untuk Uji Reliabilitas.............................. 34
DAFTAR GRAFIK

Grafik 3.1 Prosedur Dasar Desain A-B-A’ ................................. 27
Grafik 4.1 Kemampuan Menulis Subjek Pada kondisi Baseline-1 (A),
       Intervensi (B), dan Baseline-2 (A’). .................................. 41
Grafik 4.2 Perbandingan Skor Rata-rata Kemampuan Menulis Permulaan
       Subjek Pada Kondisi Baseline-1 (A), Intervensi (B) dan
       Baseline-2 (A’). ................................................................. 42
Grafik 4.3 Kecenderungan Arah Skor Menulis Permulaan ................. 43
