

ABSTRAK

Penelitian ini dilatarbelakangi oleh lulusan SMK tidak terserap secara keseluruhan oleh dunia usaha dan industri. Banyak permasalahan mengenai lulusan SMK yang menyebabkan hal ini terjadi, beberapa faktor yang diduga menjadi penyebabnya adalah ketersediaan lapangan pekerjaan yang tidak sebanding dengan jumlah lulusan SMK dan *life skills* yang dimiliki lulusan SMK beragam sebagai hasil dari proses pembelajaran selama masa pendidikan. Sehingga dalam penelitian ini, peneliti ingin menganalisis *life skills* siswa SMK yang terbentuk setelah melewati proses pembelajaran. Tujuan penelitian secara umum adalah mengetahui nilai *life skills* siswa SMK kelas XII Program Keahlian Teknik Komputer dan Jaringan di Jakarta Utara (TKJ). Adapun tujuan penelitian secara khusus adalah mengetahui nilai *personal skills*, *social skills*, *academic skills*, dan *vocational skills* siswa SMK kelas XII Program Keahlian TKJ. Penelitian ini menggunakan metode penelitian deskriptif dengan pendekatan kuantitatif. Teknik sampling yang digunakan dalam penelitian ini adalah *purposive sample* dengan jumlah sampel 102 siswa kelas XII Program Keahlian TKJ, yaitu: 31 siswa SMKN 4 Jakarta; 34 siswa SMKN 36 Jakarta dan 37 siswa SMK Perguruan Cikini Jakarta. Data penelitian diperoleh dengan instrumen angket. Dari hasil penelitian, semua pertanyaan penelitian yang diajukan terjawab, ada beberapa bagian dari sub-indikator *Personal Skills* dan *Social Skills* siswa Program Keahlian TKJ di kawasan Jakarta Utara termasuk dalam nilai kategori Baik, sedangkan *Academik Skills* dan *Vocationall Skills* siswa Program Keahlian TKJ di kawasan Jakarta Utara termasuk dalam nilai kategori Baik.

Kata Kunci : personal skills, sosial skills, akademik skills, vokasional skills, kecakapan hidup, siswa sekolah kejuruan.

ABSTRACT

This research conducted since not all of the graduated students from vocational school are able to work in business and industrial world. Many problems related to students graduated from vocational school arose since the number of offered job vacancies is not sufficient with the number of students graduated from vocational school and life skills mastered by the students are varied as a result of teaching and learning processes. Therefore, this research is aimed to analyze vocational school students' life skills formed after a process of teaching and learning. The general purpose of this research is to know the value of students' life skills.
