ABSTRAK

Penelitian ini bertujuan untuk mengetahui persiapan sekolah dan siswa sebelum pelaksanaan praktik kerja industri, pelaksanaan praktik kerja industri dilihat dari aktivitas pihak sekolah, pelaksanaan praktik kerja industri dari aktivitas siswa di industri. Penelitian ini dilaksanakan untuk mengetahui pelaksanaan praktik kerja industri. Penelitian ini merupakan penelitian deskriptif kuantitatif yang bertujuan menggambarkan atau mendeskripsikan tentang pelaksanaan praktik kerja industri. Teknik pengumpulan data yang digunakan adalah angket, wawancara, dan dokumentasi. Hasil penelitian menunjukkan bahwa pada persiapan pelaksanaan praktik kerja industri SMK Negeri 12 Bandung sebesar 85,65% (kriteria sangat baik), hal tersebut ditunjukkan dengan adanya kegiatan pendidikan dasar sikap profesi yang melibatkan berbagai pihak, dimana melibatkan tentara Husen Sastranegara dalam pembentukan karakter siswa sebelum praktik kerja industri, dan adanya bekal keterampilan kejuruan siswa yang diberikan sekolah. Pelaksanaan praktik kerja industri dari SMK Negeri 12 Bandung sebesar sebesar 77,04% (kriteria baik), didapatkan adanya kegiatan monitoring dari guru pembimbing yang baik tetapi belum optimal. Aktivitas siswa dalam praktik kerja industri sebesar 83,28% (kriteria sangat baik), dengan siswa dapat mengaplikasikan kompetensi keahliannya. Jadi dapat disimpulkan bahwa pelaksanaan praktik kerja industri pada SMK Negeri 12 Bandung dapat dikategorikan sangat baik, seperti yang terindikasi dalam persentase sebesar 81,99%.

ABSTRACT

This research attempts to investigate the preparation of the school and students before carrying out industrial internship practicum, the implementation of this practicum from the activities at the school, the implementation of the practicum based on the students' performance, and the activities done by the students in the industry. This study was conducted as an attempt to explore how the practicum was carried out. The study was a descriptive quantitative which aimed to explain or describe the implementation of the practicum. The data collection methods used were questionnaire, interview, and documentation. The results of the study indicated that the preparation of the school and students before carrying out the practicum was 85.65% (very good category), which was indicated by the implementation of the basic professional disciplining activities involving the air force army in shaping students' character before the industrial internship practicum, and there was a briefing of students' vocational aptitude given by the school. The implementation of industrial internship practicum, which was 77.04% (good category), was obtained from the school teachers' sufficient but not yet optimal monitoring activities. The students' activity in the industrial internship practicum was 83.28% (very good category), indicating the students were able to implement his vocational skills. Thus, it can be concluded that the implementation of the industrial internship practicum in SMK Negeri 12 Bandung can be categorized as good, indicated in the percentage of 81.99%.
