LEMBAR PENGESAHAN .......................................................... i
PERNYATAAN ..................................................................... ii
ABSTRAK .......................................................................... iii
ABSTRACT ......................................................................... iv
KATA PENGANTAR .............................................................. v
UCAPAN TERIMA KASIH ..................................................... vi
DAFTAR ISI .......................................................................... ix
DAFTAR TABEL ...................................................................... xii
DAFTAR GAMBAR .................................................................. xiii
DAFTAR LAMPIRAN .............................................................. xiv

BAB I PENDAHULUAN
A. Latar Belakang Penelitian ................................................... 1
B. Rumusan Masalah ............................................................... 5
C. Tujuan Penelitian ............................................................... 6
D. Manfaat Penelitian ............................................................. 6
E. Struktur Organisasi Tesis ..................................................... 7

BAB II KAJIAN PUSTAKA, KERANGKA PEMIKIRAN DAN HIPOTESIS
PENELITIAN
A. Kajian Pustaka .................................................................. 9
  1. Motivasi ................................................................. 9
     a. Pengertian Motivasi .............................................. 9
     b. Macam - Macam Motivasi .................................. 10
     c. Motivasi Dalam Belajar .................................... 12
     d. Fungsi Motivasi Dalam Belajar ....................... 14
     e. Faktor-Faktor Yang Mempengaruhi Motivasi Dalam Belajar... 15
2. Model Pembelajaran
   a. Fungsi dan Pentingnya Penggunaan Model Pembelajaran ................. 18
   b. Model – Model Pembelajaran .................................................. 20
   c. Pengaruh Model Pembelajaran Terhadap Motivasi .......................... 22
3. Model Pembelajaran Inquiry ......................................................... 23
   a. Pengertian Pembelajaran Inquiry ................................................. 23
   b. Tujuan Pembelajaran Inquiry ...................................................... 24
   c. Kondisi Pembelajaran Menggunakan Pembelajaran Inquiry ............... 25
   d. Kelebihan dan Kekurangan Model Inquiry ...................................... 27
   e. Pengaruh Model Pembelajaran Inquiry Terhadap Motivasi Belajar Siswa ................................................................. 28
   f. Tahapan Model Pembelajaran Inquiry ............................................. 29
B. Kerangka Pemikiran ........................................................................ 32
C. Hipotesis ......................................................................................... 35

BAB III METODE PENELITIAN
A. Populasi dan Sampel ...................................................................... 37
   1. Populasi ..................................................................................... 37
   2. Sampel ...................................................................................... 37
B. Metode Penelitian .......................................................................... 38
   1. Validitas Internal ........................................................................ 38
   2. Validitas Eksternal ....................................................................... 39
C. Desain Penelitian ........................................................................... 40
D. Definisi Operasional ....................................................................... 41
E. Instrumen Penelitian ...................................................................... 42
F. Proses Pengembangan Instrumen ................................................... 43
   1. Sampel Uji Coba Instrumen ......................................................... 43
   2. Waktu dan Tempat Uji Coba Instrumen ....................................... 43
   3. Uji Validitas ................................................................................ 44
a. Hasil Uji Validitas ................................................................. 44
4. Uji Reliabilitas ................................................................. 46
   a. Hasil Uji Reliabilitas .................................................. 47
G. Teknik Pengumpulan Data ........................................... 47
H. Teknik Analisis Data ...................................................... 48
   1. Pengolahan Data Hasil Penelitian ................................ 48
   2. Pelaksanaan Pembelajaran .......................................... 50

BAB IV HASIL PENELITIAN DAN PEMBAHASAN
A. Hasil Penelitian ............................................................. 57
   1. Hasil Perhitungan Nilai Rata-rata dan Simpangan Baku .. 57
   2. Pengujian Normalitas .................................................. 58
   3. Pengujian Homogenitas .............................................. 58
   4. Hasil Pengujian Hipotesis Penelitian ............................ 59
B. Diskusi Penemuan ......................................................... 61

BAB V KESIMPULAN, IMPLIKASI DAN SARAN
A. Kesimpulan ................................................................. 64
B. Implikasi ................................................................. 64
   1. Implikasi Teoritis ....................................................... 64
   2. Implikasi Praktis ....................................................... 64
C. Saran ................................................................. 65
