BAB I PENDAHULUAN

A. Latar Belakang Masalah ....................................................................................................................... 1
B. Identifikasi Masalah ............................................................................................................................ 6
C. Rumusan Masalah .............................................................................................................................. 6
D. Tujuan Penelitian ............................................................................................................................... 7
E. Manfaat/Signifikasi Penelitian ......................................................................................................... 7
F. Struktur Organisasi Skripsi ............................................................................................................. 7

BAB II KAJIAN PUSTAKA, KERANGKA PEMIKIR DAN HIPOTESIS TINDAKAN

A. KAJIAN PUSTAKA ............................................................................................................................... 8
1. Pendidikan Jasmani .......................................................................................................................... 8
   a. Hakikat Pendidikan Jasmani ........................................................................................................ 8
   b. Tujuan Pendidikan Jasmani ........................................................................................................ 9
   c. Ruang Lingkup Pendidikan Jasmani ........................................................................................... 11
2. Permainan Bola Voli ......................................................................................................................... 12
   a. Pengertian Permainan Bola Voli .................................................................................................. 12
b. Prinsip-prinsip Permainan Bola Voli ....................................................... 14
c. Asas Permainan Bola Voli ................................................................. 15
d. Tujuan Permainan Bola Voli ............................................................. 16
e. Gerak Dasar Permainan Bola Voli ..................................................... 17
3. Nilai-nilai Kerjasama .............................................................................. 23
   a. Syarat-syarat kerjasama ................................................................. 29
   b. Tahapan-tahapan Kerjasama ......................................................... 31
   c. Faktor-faktor Pendorong Bentuk Kerjasama .................................. 32
   d. Manfaat Kerjasama ........................................................................ 33
   e. Keterkaitan Pendidikan Jasmani dengan Kerjasama ...................... 33
4. Hakekat Pendekatan Bermain ............................................................... 37
   a. Pengertian Teori Bermain ............................................................... 38
   b. Fungsi Bermain dalam Pendidikan ............................................... 40
   c. Makna Bermain dalam Pendidikan ................................................. 41
5. Hakekat Penelitian Tindakan Kelas ..................................................... 44
   A. Pengertian PTK ............................................................................... 44
      a. Tujuan PTK .................................................................................. 45
      b. Manfaat PTK .............................................................................. 46
      c. Karakteristik PTK ....................................................................... 46
   B. Kerangka Pemikiran ....................................................................... 47
   C. Hipotesis Tindakan ......................................................................... 49

BAB III METODELOGI PENELITIAN
   A. Metode Penelitian ............................................................................ 50
   B. Tempat dan Waktu Penelitian ......................................................... 50
   C. Subjek Penelitian ............................................................................ 51
   D. Prosedur Penelitian dan Rancangan Penelitian ............................... 51
      1. Prosedur Penelitian ..................................................................... 51
      2. Rancangan Penelitian ................................................................. 53
a. Siklus I .................................................................................................................. 53
b. Siklus 2 ................................................................................................................ 54
  a) Siklus I (tindakan 1) ......................................................................................... 56
  b) Siklus I (Tindakan 2) ....................................................................................... 58
c. Siklus II (tindakan 1) ......................................................................................... 61
d) Siklus II (tindakan 2) ......................................................................................... 64

E. Instrumen Penelitian ............................................................................................. 67
   1. Observasi .......................................................................................................... 67
   2. Catatan Lapangan ............................................................................................. 68

F. Teknik Pengumpulan Data .................................................................................... 70

G. Teknik Analisis Data ........................................................................................... 70
   1. Analisis Data .................................................................................................... 70
   2. Isu Etik ............................................................................................................. 71
      a. Uji Kredibilitas .............................................................................................. 71
      b. Uji Transferability ....................................................................................... 72
      c. Uji Dependability ....................................................................................... 73
      d. Uji Komfirmability ...................................................................................... 73

BAB IV TEMUAN DAN PEMBAHASAN

A. Temuan Penelitian ............................................................................................... 74
   1. Deskripsi Data ................................................................................................... 74
   2. Analisis Data Observasi Awal ......................................................................... 75
   3. Pembahasan Penelitian .................................................................................... 76

1. Siklus I (Tindakan 1) ......................................................................................... 76
   a. Perencanaan ................................................................................................... 76
   b. Pelaksanaan Tindakan .................................................................................... 77
   c. Observasi ....................................................................................................... 81
   d. Refleksi .......................................................................................................... 81

2. Siklus (I tindakan 2) ......................................................................................... 82
BAB V KESIMPULAN DAN SARAN

A. Kesimpulan ................................................................. 101
B. Saran ........................................................................ 101
