PENDAHULUAN
1.1. Latar Belakang .......................................................................................................................... 1
1.2. Identifikasi Masalah (Rumusan dan Batasan Masalah) ................................................................. 3
   1.2.1. Rumusan Masalah ............................................................................................................. 3
   1.2.2. Batasan Masalah ................................................................................................................ 4
1.3. Tujuan dan Manfaat Penelitian ................................................................................................. 5
   1.3.1. Tujuan Penelitian ............................................................................................................... 5
   1.3.2. Manfaat penelitian ............................................................................................................. 6
1.4. Definisi Operasional .................................................................................................................. 7
1.5. Anggapan Dasar ....................................................................................................................... 7
1.6. Hipotesis penelitian .................................................................................................................. 8
1.7. Metode Penelitian .................................................................................................................... 9
1.8. Populasi dan sampel penelitian .............................................................................................. 10
   1.8.1. Populasi penelitian .......................................................................................................... 10
   1.8.2. Sampel Penelitian ............................................................................................................. 10
1.9. Instrument penelitian ............................................................................................................... 11
   1.9.1. Tes .................................................................................................................................. 11
   1.9.2. Angket ............................................................................................................................. 11
   1.9.3. Observasi ........................................................................................................................ 11

BAB II LANDASAN TEORITIS
2.1. Media
   2.1.1. Pengertian Media ............................................................................................................. 13
   2.1.2. Jenis Media ..................................................................................................................... 14
   2.1.3. Manfaat media ................................................................................................................ 18
   2.1.4. Pemilihan Media ............................................................................................................. 19
2.2. Huruf Kana
   2.2.1. Hiragana ......................................................................................................................... 20
   2.2.2. Katakana ......................................................................................................................... 26
2.3. Media Lagu ............................................................................................................................... 28
BAB 3 METODOLOGI PENELITIAN

3.1. Metode Penelitian ................................................................. 31
3.2. Variabel Penelitian ................................................................. 34
3.3. Tempat dan waktu penelitian .................................................. 35
3.4. Populasi dan sampel penelitian ............................................. 35
  3.4.1. Populasi penelitian ......................................................... 35
  3.4.2. Sampel penelitian ............................................................ 36
3.5. Instrument penelitian ............................................................. 36
  3.5.1. Tes, pretest, dan posttest ................................................. 37
  3.5.2. Angket ............................................................................... 39
  3.5.3. Observasi .......................................................................... 41
3.6. Teknik pengumpulan data ..................................................... 43
3.7. Uji kelayakan instrument ..................................................... 47
  3.7.1. Uji validitas ....................................................................... 47
  3.7.2. Uji reliabilitas .................................................................... 47
3.8. Teknik pengolahan data .......................................................... 47
3.9. Rancangan eksperimen ......................................................... 51

BAB IV ANALISIS DATA

4.1. Deskripsi data ........................................................................... 59
4.2. Analisis data .............................................................................. 62
  4.2.1. Analisis data tes ............................................................... 62
  4.2.2. Analisis jawaban soal tes ................................................. 70
    4.2.2.1. Analisis jawaban soal pretest ....................................... 70
    4.2.2.2. Analisis jawaban soal postest ....................................... 76
  4.2.3. Analisis angket ................................................................. 81
4.3. Pembahasan .............................................................................. 92

BAB V KESIMPULAN DAN SARAN

5.1. Kesimpulan .............................................................................. 94
5.2. Saran ....................................................................................... 95
