PERNYATAAN ........................................................................................................... i

ABSTRAK ...................................................................................................................... ii

KATA PENGANTAR ...................................................................................................... iv

UCAPAN TERIMA KASIH .............................................................................................. v

DAFTAR ISI ................................................................................................................... vii

DAFTAR TABEL ........................................................................................................... ix

DAFTAR GAMBAR ......................................................................................................... xi

DAFTAR LAMPIRAN ...................................................................................................... xii

BAB I PENDAHULUAN

A. Latar Belakang Penelitian ......................................................................................... 1

B. Rumusan Masalah Penelitian ................................................................................... 4

C. Tujuan Penelitian ..................................................................................................... 5

D. Manfaat Penelitian .................................................................................................. 5

BAB II KAJIAN PUSTAKA

A. Model Problem Based Learning ............................................................................. 6

B. Literasi Matematis ................................................................................................... 10

C. Self-Efficacy ........................................................................................................... 13

D. Model Pembelajaran Konvensional ....................................................................... 15

E. Keterkaitan Model Problem Based Learning dengan Kemampuan Literasi Matematis dan Self-Efficacy Siswa ................................................................. 17

F. Hipotesis ................................................................................................................ 18

G. Penelitian yang Relevan ........................................................................................ 18

BAB III METODE PENELITIAN

A. Metode dan Desain Penelitian .............................................................................. 19

B. Populasi, Sampel, dan Variabel Penelitian ............................................................ 19

C. Definisi Operasional ............................................................................................... 20

D. Instrumen Penelitian .............................................................................................. 21
BAB IV HASIL PENELITIAN DAN PEMBAHASAN

A. Analisis Data Pretest Kemampuan Literasi Matematis Siswa .......... 40
B. Analisis Data Peningkatan Kemampuan Literasi Matematis
   Siswa ................................................................................................. 45
C. Analisis Data Pretest Self-Efficacy ............................................. 48
D. Analisis Data Peningkatan Self-Efficacy ..................................... 51
E. Analisis Data Lembar Observasi ............................................... 53
F. Analisis Data Jurnal Harian Siswa ............................................. 58
G. Pembahasan Peningkatan Kemampuan Literasi Matematis
   Siswa .................................................................................................. 60
H. Pembahasan Kesalahan Siswa .................................................... 62
I. Pembahasan Peningkatan Self-Efficacy Siswa ............................ 78
J. Pembahasan Respon Siswa terhadap Model Problem Based
   Learning ............................................................................................ 79

BAB V KESIMPULAN DAN SARAN

A. Kesimpulan ................................................................................... 82
B. Saran ............................................................................................ 82

DAFTAR PUSTAKA ............................................................................ 83

DAFTAR RIWAYAT HIDUP ............................................................... 175
DAFTAR TABEL

Tabel 2.1 Sintak Problem Based Learning .......................................................... 9
Tabel 2.2 Proporsi Skor Sub-sub Komponen Proses ........................................... 12
Tabel 2.3 Dimensi dan Deskriptor Self-Efficacy Matematis .............................. 14
Tabel 2.4 Fase-fase Pengajaran Langsung ......................................................... 16
Tabel 3.1 Pedoman Penskoran Literasi Matematis Level 3 ................................. 22
Tabel 3.2 Interprestasi Koefisien Korelasi Validitas ....................................... 24
Tabel 3.3 Validitas Butir Soal Kemampuan Literasi Matematis ......................... 24
Tabel 3.4 Klasifikasi Koefisien Reliabilitas ...................................................... 25
Tabel 3.5 Kriteria Indeks Kesukaran ................................................................... 26
Tabel 3.6 Indeks Kesukaran Soal Literasi Matematis ........................................ 26
Tabel 3.7 Kriteria Daya Pembeda ................................................................. 27
Tabel 3.8 Daya Pembeda Soal Literasi Matematis ............................................ 28
Tabel 3.9 Rekapitulasi Analisis Hasil Uji Instrumen Literasi .............................. 28
Tabel 3.10 Validitas Angket Self-Efficacy ......................................................... 30
Tabel 3.11 Reliabilitas Angket Self-Efficacy ..................................................... 31
Tabel 3.12 Interpretasi Indeks Gain .................................................................... 37
Tabel 3.13 Interpretasi Presentase Lembar Observasi ....................................... 38
Tabel 3.14 Interpretasi Presentase Jurnal Harian .............................................. 39
Tabel 4.1 Statistik Deskriptif Data Pretest Kemampuan Literasi Matematis Siswa ................................................................. 41
Tabel 4.2 Data Pretest Kemampuan Literasi Matematis Siswa Kelas Kontrol .................................................................................. 42
Tabel 4.3 Data Pretest Kemampuan Literasi Matematis Siswa Kelas Eksperimen ........................................................................ 43
Tabel 4.4 Output Uji Mann-Whitney Data Pretest Kemampuan Literasi Matematis Siswa ................................................................. 44
Tabel 4.5 Data Indeks Gain Kemampuan Literasi Matematis Siswa ............. 45
Tabel 4.6 Output Uji Normalitas Data Indeks Gain .......................................... 46
Tabel 4.7  
*Output Uji Mann-Whitney Data Indeks Gain Kemampuan Literasi Matematis Siswa* ................................................................. 48

Tabel 4.8  
Statistik Deskriptip Data *Pretest Self-Efficacy Siswa* ............. 49

Tabel 4.9  
*Output Uji Mann-Whitney Data Pretest Self-Efficacy Siswa* ..... 50

Tabel 4.10  
Data *Indeks Gain Self-Efficacy Siswa* ..................................... 51

Tabel 4.11  
*Output Uji Mann-Whitney Data Indeks Gain Self-Efficacy Siswa* .............................................................................. 53

Tabel 4.12  
Lembar Hasil Observasi Aktivitas Guru .................................. 54

Tabel 4.13  
Rekapitulasi Presentase Lembar Observasi Aktivitas Guru .... 55

Tabel 4.14  
Lembar Hasil Observasi Aktivitas Siswa .................................. 55

Tabel 4.15  
Rekapitulasi Presentase Lembar Observasi Aktivitas Siswa ..... 58

Tabel 4.16  
Rekapitulasi Presentase Data Hasil Jurnal Harian Siswa ........ 59

Tabel 4.17  
Interpretasi Indeks Gain Kelas Eksperimen dan Kelas Kontrol .................................................................................... 65
