ACKNOWLEDGEMENT

Above all and everything, I would like to express my gratitude to Allah SWT, the Almighty, for His gift and care that endowed me with strength and motivation to complete this work.

This work owes its existence to the help, support and inspiration of several people. Firstly, my deepest gratitude is to my supervisors, Pupung Purnawarman, M.S.Ed., Ph.D. and Muhammad Handi Gunawan, M.Pd. who have spent their time (even their weekends) in guiding me at all the stages of this project. The whole process has taught me so much.

Most importantly, none of this would have been possible without the love and patience of my family. My late dad, Bapak Aruji, I'm eternally grateful for knowledge you shared with me. See you in Jannah, Pah. My dearest darling mom, Cicih Garnasih, who always stood by me like a pillar in times of need and to whom I owe my life for her constant love, encouragement, moral support, and blessings. I am honored to be their daughter. My sisters, Rian Apriliani and Mega Indah Sari. Thank yous for the support that you had given to me. My lovely niece and nephew, Garneta and Nayaka, thank you for being my mood boosters.

I also thank my dear friends, Elina R. Halawa, Farah Sahirah, Nisa Aghnia, Adinda Ratna, Dewi Rosiana, Ria Dewi for being my company during my study at UPI. Elina, Farah, Patra, and Restu Wibowo thank you so much for your support and help during the process of writing this work. Ega Nugraha, Reza M, Hestria, Adif, Risa N, Mita, Gandi, Hemas, Indang, Yunida, Ratna Dewi, Treevanny, you guys are the precious part of my life.

All the participants involved in my research, I had invaluable assistance from Ibu Ekawati Winengku, Ibu Rita Rostika and all of the students of X IIS 1, X IIS 2 and X IIS 3 at SMA Negeri 15 Bandung. Without them, the completion of this study would not have been possible.

At the end, I thank all those whose names may have escaped attention here but have in one way or another contributed to my work. Thank you.
