

ABSTRAK

Skripsi ini berjudul "Proses Persiapan PSM UPI Bandung pada 4th Vietnam International Choir Competition 2015." Penelitian ini dilakukan dengan tujuan mengungkap tentang proses persiapan yang ditempuh oleh PSM UPI Bandung dalam menghadapi kompetisi paduan suara tingkat internasional di Hoi An, Vietnam. Jumlah anggota yang sangat minim, namun mampu meraih *Golden Diploma* membuat peneliti tertarik untuk meneliti proses persiapan yang dilakukan PSM UPI. Adapun yang menjadi fokus penelitian antara lain tahap persiapan, seleksi anggota, proses registrasi, pelatihan, prakompetisi hingga analisis proses pertunjukan berlangsung di panggung kompetisi yang dilakukan PSM UPI Bandung pada tahun 2015. Metode yang digunakan pada penelitian ini yaitu deskriptif analisis dengan pendekatan kualitatif yang hasilnya disajikan dalam bentuk paparan. Berdasarkan hasil penelitian, jumlah anggota yang minim tidak menjadi masalah ketika ada upaya mengoptimalkan jumlah anggota melalui rangkaian proses latihan dan pemanasan vokal. Selain itu, keterlibatan anggota paduan suara mahasiswa dalam melakukan persiapan secara *multitasking* menjadi penting adanya dalam rangka melatih *softskill* berorganisasi di tingkat universitas. Akan tetapi masih terdapat beberapa kekurangan yang direkomendasikan untuk dikembangkan bagi pelatih maupun anggota PSM UPI Bandung.

Kata kunci: PSM UPI, Pelatihan, Proses Persiapan

ABSTRACT

This paper entitled "Proses Persiapan PSM UPI Bandung pada 4th Vietnam International Choir Competition 2015" It aimed to investigate the process of preparation conducted by PSM UPI Bandung during an international choral competition in Hoi An, Vietnam. Even though the number of the members was limited, but this team has been successful got the Golden Diploma, then it made the researcher to be interested to investigate the preparation process conducted by PSM UPI. This study focused on the preparation, selection of the members, registration process, training, pre-competition and every single show that performed by PSM UPI Bandung in 2015. The method employed in this study was descriptive analysis by using qualitative approach which was then delivered in the form of explanation. Based on the result of this study, the limited number of the members was not becoming a problem as long as they optimized the number through series of exercises and vocalizing. Moreover, the involvement realized through multitasking of the members during the preparation was very important since it trained their softskill in the level of university. However there were still some weaknesses found and suggested to be developed for both trainers and members of the PSM UPI Bandung.
