LEMBAR PERNYATAAN.......................................................... iv
PERSEMAHAN........................................................................ v
KATA PENGANTAR................................................................. vi
ABSTRAK.......................................................... viii
ABSTRACT........................................................................ ix
DAFTAR ISI.......................................................................... x
DAFTAR TABEL ............................................................. xiii
DAFTAR GAMBAR .......................................................... xiv
DAFTAR LAMPIRAN........................................................... xv

BAB I. PENDAHULUAN................................................................. 1
A. Latar Belakang Penelitian................................................. 1
B. Identifikasi Masalah Penelitian........................................... 6
C. Perumusan Masalah Penelitian........................................... 7
D. Pembatasan Masalah Penelitian......................................... 7
E. Tujuan Penelitian.............................................................. 8
F. Manfaat Penelitian............................................................ 9
G. Definisi Operasional.......................................................... 9

BAB II. TINJAUAN PUSTAKA DAN KERANGKA PENELITIAN...... 12
A. Keterampilan Berpikir Kritis............................................. 12
B. Instrumen Penilaian Berpikir Kritis.................................... 19
C. Proses Pembelajaran Yang Melatihkan Keterampilan
   Berpikir Kritis siswa .......................................................... 22

KONSTRUKSI INSTRUMEN TES KETERAMPILAN BERPIKIR KRITIS TERKAIT MATERI GELOMBANG BUNYI
Universitas Pendidikan Indonesia | repository.upi.edu | perpustakaan.upi.edu
a. Pembelajaran Berbasis Inkuiri ........................................... 24
b. Pembelajaran Berbasis Masalah ........................................... 28
c. Pembelajaran Dengan Siklus Belajar (*Learning Cycle*) 5E ...... 31
D. Kaitan Materi Ajar Gelombang Bunyi Dengan Keterampilan
   Berpikir Kritis ...................................................................... 33
E. Penelitian Yang Relevan ....................................................... 36
F. Kerangka Pikir Penelitian ..................................................... 37

BAB III. METODE PENELITIAN .............................................. 40
A. Metode dan Desain Penelitian .............................................. 40
   1. Studi Pendahuluan .......................................................... 41
      a. Studi Kebijakan ......................................................... 41
      b. Survey Lapangan ke Sekolah ....................................... 41
      c. Studi Literatur .......................................................... 41
   2. Perancangan dan Penelaahan Instrumen Tes ....................... 42
      a. Perancangan Draft Instrumen Tes ............................... 42
      b. Penelaahan Instrumen Tes ........................................... 43
   3. Uji Implementasi Instrumen Tes ....................................... 44
B. Lokasi dan Subyek Penelitian ................................................ 47
C. Instrumen Penelitian .............................................................. 47
   a. Lembar Observasi ......................................................... 47
   b. Instrumen Tes Keterampilan Berpikir Kritis .................... 48
D. Teknik Pengolahan Data ........................................................ 48
   a. Reabilitas ................................................................. 48
   b. Analisis Hasil Uji Implementasi Instrumen Tes ............... 49

BAB IV. HASIL DAN PEMBAHASAN ...................................... 54
A. Hasil Penelitian ................................................................. 54
   1. Hasil Studi Pendahuluan ............................................... 54
   2. Hasil Perancangan dan Penelaahan Instrumen Tes ............. 59
a. Hasil Perancangan Instrumen Tes. ............................................ 59
b. Hasil Penelaahan Instrumen Tes............................................. 67
3. Hasil Pengujian Instrumen Tes.............................................. 70
   a. Sampel Sekolah Uji Implementasi Instrumen Tes. ............ 70
   b. Hasil Uji Hipotesis Beda 2 Nilai Rata-Rata Post Test........ 71
c. Hasil Uji Anova............................................................. 73
d. Hasil Analisis Persentase Skor Rata-Rata Tiap Sub Indikator
   Keterampilan Berpikir Kritis............................................. 74
e. Hasil Uji Korelasi Antara Keterampilan Berpikir Kritis
   Dengan Penguasaan Materi Ajar........................................ 77
B. Pembahasan Penelitian....................................................... 78
   1. Karakteristik Instrumen Tes Keterampilan Berpikir Kritis... 78
   2. Kualitas Instrumen Tes.................................................... 80
   3. Korelasi Keterampilan Berpikir Kritis
   Dengan Penguasaan Materi Ajar......................................... 86

BAB V. KESIMPULAN, IMPLIKASI, DAN SARAN.. ...................... 91
A. Kesimpulan........................................................................... 91
B. Implikasi.............................................................................. 92
C. Saran.................................................................................... 93
