PERBANDINGAN PRESTASI BELAJAR SISWA ATLET PPLP DAYUNG JAWA BARAT DAN SISWA REGULER SMA NEGERI 2 PADALARANG

Di bawah bimbingan : Carsiwan, M.Pd.

Tujuan penelitian ini adalah untuk mengetahui perbedaan prestasi belajar siswa atlet PPLP Dayung Jawa Barat dan siswa reguler SMAN 2 Padalarang. Metode penelitian yang digunakan adalah metode penelitian *ex post facto*. Penelitian dilaksanakan terhadap 91 siswa SMAN 2 Padalarang. Instrumen yang digunakan adalah kumpulan nilai atau *legger*. Berdasarkan hasil perhitungan uji beda rata-rata dengan teknik membandingkan dengan kurva normal, diperoleh nilai $z_{hitung} = -0,23830$ dan nilai $z_{tabel} = 1,95996$ atau $-1,95996$, sehingga dapat dinyatakan $-1,95996 < -0,23830 < 1,95996$, z_{hitung} didalam daerah penerimaan H_0 , maka H_0 diterima. Kesimpulan tidak terdapat perbedaan yang signifikan dari prestasi belajar antara siswa atlet PPLP dayung Jawa Barat dan siswa reguler SMAN 2 Padalarang. Dengan kata lain siswa atlet PPLP dayung Jawa Barat memiliki rata-rata hasil belajar yang sama dengan siswa reguler.

Kata kunci : hasil belajar, siswa reguler, siswa atlet PPLP dayung.

ABSTRACT

COMPARATION OF OVERALL LEARNING OUTCOMES BETWEEN REGULAR STUDENT AND PPLP ROWING ATHLETE STUDENT FROM WEST JAVA (AT SMA STATE 2 PADALARANG)

Guided by : Carsiwan, M.Pd.

The purpose of this research is to determine the differences of overall learning outcomes between PPLP Rowing Athlete student from West Java and regular students in 2 Padalarang Senior High School. The method of this research is descriptive method. The research was conducted on 91 students of 2 Padalarang Senior High School . The instrument used was a set value or legger. Based on the calculation results of different test average and technique compares with normal curve, $z_{hitung} = -0.23830$ and $z_{tabel} = 1.95996$ or -1.95996 , so it can be expressed $-1.95996 < -0.23830 < 1$, 95996 , z_{hitung} in the reception area of H_0 , then H_0 is accepted. Conclusion there is no significant difference of the overall learning outcomes between PPLP Rowing Athlete student from West Java and regular students 2 Padalarang Senior High School. In other words, the students athletes West Java Rowing PPLP has an equal academic achievement to regular students..

Keywords: *learning outcomes, regular students, PPLP rowing athletes student.*
