BAB I PENDAHULUAN

A. Latar Belakang Masalah .......................................................... 1
B. Identifikasi Masalah ................................................................. 6
C. Batasan Masalah ....................................................................... 7
D. Rumusan Masalah ..................................................................... 7
E. Tujuan Penelitian ...................................................................... 8
F. Manfaat Penelitian .................................................................... 8

BAB II KAJIAN PUSTAKA DAN HIPOTESIS PENELITIAN

A. Kajian Pustaka ........................................................................ 10
   1. Pendidikan Jasmani ............................................................. 10
      a. Pengertian Pendidikan Jasmani ......................................... 10
      b. Karakteristik Pendidikan Jasmani ...................................... 11
      c. Bahan Ajar Pendidikan Jasmani ......................................... 12
      d. Tujuan Pendidikan Jasmani .............................................. 13
   2. Konsentrasi Belajar ............................................................... 14
      a. Konsep Belajar ................................................................. 14
      b. Pengertian Konsentrasi .................................................... 15
      c. Konsentrasi Belajar ......................................................... 16
d. Faktor – Faktor yang Mempengaruhi Konsentrasi Belajar .... 18
3. Hasil Belajar ........................................................................................................ 19
4. Waktu Belajar Pendidikan Jasmani ................................................................. 21
   a. Pengertian waktu ......................................................................................... 21
   b. Waktu Biologis .......................................................................................... 21
   c. Jam pelajaran di Sekolah ........................................................................... 28
   d. Waktu Belajar di Sekolah ........................................................................... 28
B. Kerangka Berfikir Penelitian ........................................................................ 32
C. Hipotesis Penelitian ........................................................................................ 37

BAB III METODE PENELITIAN
A. Metode Penelitian .......................................................................................... 39
B. Desain Penelitian Kausal Komparatif (Ex Post Facto) ................................. 40
C. Lokasi, Populasi, dan Sampel Penelitian ...................................................... 41
   1. Lokasi Penelitian ......................................................................................... 41
   2. Populasi Penelitian ..................................................................................... 41
   3. Sampel Penelitian ......................................................................................... 41
D. Teknik Pengambilan Data ................................................................................ 42
   1. Tingkat Konsentrasi .................................................................................... 42
   2. Hasil Belajar Siswa .................................................................................... 43
   3. Waktu Belajar ............................................................................................. 43
E. Variabel Penelitian ......................................................................................... 43
F. Instrumen Penelitian ...................................................................................... 44
G. Uji Validitas dan Reliabilitas Instrumen ....................................................... 46
   1. Uji Validitas ................................................................................................. 47
   2. Uji Reliabilitas ........................................................................................... 47
H. Analisis Data .................................................................................................. 48
   1. Mengitung Rata-Rata dan Simpangan Baku ............................................. 48
   2. Uji Normalitas ............................................................................................ 49
   3. Uji Homogenitas ......................................................................................... 50
   4. Uji Hipotesis ............................................................................................... 50

BAB IV TEMUAN DAN PEMBAHASAN

A. Temuan ............................................................................................................. 52
   1. Gambaran Umum Lokasi Penelitian .......................................................... 52
   2. Gambaran Umum Pelaksanaan Penelitian ..................................................... 53
   3. Deskripsi Pengambilan Data Konsentrasi dan Hasil Belajar ............. 54
   4. Pengujian Instrumen Penelitian ................................................................. 57
      a. Uji validitas Intrumen ........................................................................... 57
      b. Uji Reliabilitas Instrumen ..................................................................... 58
   5. Pengolahan Data dan Analisis Data .............................................................. 59
      a. Menghitung Rata-rata dan Simpangan Baku ......................................... 59
      b. Uji Normalitas .......................................................................................... 60
      c. Uji Homogenitas ....................................................................................... 61
      d. Uji Hipotesis .............................................................................................. 63

B. Pembahasan ...................................................................................................... 67

BAB V SIMPULAN, IMPLIKASI DAN REKOMENDASI

A. Simpulan ........................................................................................................... 72
B. Implikasi ............................................................................................................ 73
C. Rekomendasi .................................................................................................... 75
