

ABSTRACT

The study entitled Word Formation Processes in the *Black Hawk Down* Movie Script is aimed to reveal the tokens of acronym, compounding and clipping, and identify the context of situation leading to the use of those tokens in the movie script of *Black Hawk Down*. This study used Bauer's (1983) theory of word formation processes and Hymes's (1974) theory of the context of situation. The result of the analysis showed that the total number of the target words is 75 tokens. There are 19 acronyms (35 tokens), 19 compounding (26 tokens), and 8 clipping (24 tokens). Then, the use of those tokens is various depending on the context of situation. However the use of acronym, compounding, and clipping tokens are mostly used in the form of a command and a report. Furthermore, the use of each token is also used between soldiers or between superior-subordinate, within both formal and informal situations.

ABSTRAK

Penelitian berjudul *Word Formation Processes in the Black Hawk Down Movie Script* bertujuan untuk mengungkap token *acronym*, token *compounding* dan token *clipping*, dan mengidentifikasi konteks situasi dari penggunaan token-token tersebut dalam naskah film *Black Hawk Down*. Penelitian ini menggunakan teori Bauer (1983) dalam *word formation processes* dan Hymes (1974) dalam konteks situasi. Hasil analisis menunjukkan bahwa jumlah total dari sasaran kata adalah 75 token, terdiri dari 19 *acronym* (35 token), 19 *compounding* (26 token), dan 8 *clipping* (24 token). Penggunaan dari token-token tersebut bermacam-macam tergantung pada konteks situasi. Namun penggunaan dari token *acronym*, *compounding* dan *clipping* sering digunakan dalam bentuk perintah dan laporan. Selain itu, penggunaan setiap token juga digunakan antara tentara atau antara atasan-bawahan, dalam bentuk situasi formal dan informal.
