DAFTAR GRAFIK ............................................................................................................................. xiv
DAFTAR LAMPIRAN ......................................................................................................................... xv

BAB I PENDAHULUAN ................................................................................................................. 1
A. Latar Belakang Penelitian ........................................................................................................... 1
B. Masalah ....................................................................................................................................... 4
   1. Identifikasi Masalah ................................................................................................................ 4
   2. Batasan Masalah .................................................................................................................... 4
   3. Perumusan Masalah .............................................................................................................. 4
C. Tujuan Penelitian ....................................................................................................................... 5
D. Manfaat Penelitian ..................................................................................................................... 5
E. Definisi Operasional ................................................................................................................... 6

BAB II PEMBELAJARAN MENULIS PETUNJUK DENGAN MENGGUNAKAN
METODE EXAMPLES NONEXAMPLES ............................................................................. 8
A. Pembelajaran Menulis Petunjuk ................................................................................................ 8
   1. Pengertian Menulis ............................................................................................................... 8
   2. Tujuan Menulis .................................................................................................................... 9
   3. Manfaat Menulis .................................................................................................................. 11
   4. Langkah-langkah Menulis .................................................................................................. 13

Supraini Rezkita, 2013
Penerapan Metode Examples Non Examples Dalam Pembelajaran Menulis Petunjuk
Universitas Pendidikan Indonesia | repository.upi.edu | perpustakaan.upi.edu
5. Hambatan Menulis ................................. 15
6. Menulis Petunjuk ................................................ 16
   a. Pengertian dan Tujuan Menulis Petunjuk .......... 16
   b. Bahasa dan Jenis Petunjuk .............................. 17
   c. Struktur dan Kaidah Menulis Petunjuk .......... 18
B. Metode Examples Nonexamples .......................... 20
C. Penerapan Metode Examples Nonexamples dalam Menulis Petunjuk .......... 22
D. Penelitian Terdahulu ........................................ 22
E. Anggapan Dasar ............................................. 22
F. Hipotesis ...................................................... 21

BAB III METODE PENELITIAN .............................. 23
A. Lokasi dan Subjek Penelitian ....................... 23
   1. Lokasi Penelitian ......................................... 23
   2. Sumber Data Penelitian .................................. 23
      a. Populasi .............................................. 23
      b. Sampel ............................................ 23
B. Metode dan Desain Penelitian ..................... 24
C. Teknik Pengumpulan Data ............................ 25
D. Prosedur Penelitian ...................................... 28
E.Instrumen Penelitian ...................................... 29
F. Analisis Data .............................................. 33

BAB IV HASIL PENELITIAN DAN PEMBAHASAN ................. 36
A. Deskripsi Data ............................................... 36
   1. Data Hasil Tes ............................................ 36
      a. Nilai Tes Awal Kelas Eksperimen .................. 37
      b. Nilai Tes Awal Kelas Kontrol ....................... 51
      c. Nilai Tes Akhir Kelas Eksperimen ................. 61
      d. Nilai Tes Akhir Kelas Kontrol ...................... 72
2. Data Hasil Observasi ........................................................................................................ 84
   a. Hasil Observasi Aktivitas Guru .................................................................................. 84
   b. Hasil Observasi Aktivitas Siswa ................................................................................. 85

B. Deskripsi Pengolahan Data ............................................................................................ 87
2. Analisis Data Penilaian Tes Awal dan Tes Akhir Kelas Kontrol ................. 88
3. Analisis Statistik Data Tes Awal dan Tes Akhir Kelas Eksperimen dan Kelas Kontrol ................................................................. 90
   a. Uji Reliabilitas ............................................................................................................. 90
      1) Uji Reliabilitas Tes Awal Kelas Eksperimen ......................................................... 90
      2) Uji Reliabilitas Tes Awal Kelas Kontrol ................................................................. 93
      3) Uji Reliabilitas Tes Akhir Kelas Eksperimen ....................................................... 97
      4) Uji Reliabilitas Tes Akhir Kelas Kontrol ............................................................... 100
   b. Uji Normalitas dan Homogenitas Data .................................................................... 103
      1) Uji Normalitas dan Homogenitas Data Tes Awal Kelas Eksperimen dan Kelas Kontrol ................................................................. 103
      2) Uji Normalitas dan Homogenitas Data Tes Akhir Kelas Eksperimen dan Kelas Kontrol ................................................................. 105
   c. Uji Hipotesis ................................................................................................................ 106

C. Pembahasan Hasil Penelitian ....................................................................................... 109
1. Kemampuan Menulis Petunjuk Siswa sebelum Menggunakan Metode Examples Nonexamples di Kelas Eksperimen dan Tanpa Menggunakan Metode Examples Nonexamples di Kelas Kontrol ........................................ 109
2. Kemampuan Menulis Petunjuk Siswa Sesudah Menggunakan Metode Examples Nonexamples di Kelas Eksperimen dan Tanpa Menggunakan Metode Examples Nonexamples di Kelas Kontrol ................................. 110
3. Perbandingan Kemampuan Menulis Petunjuk Siswa Sebelum dan Sesudah Menggunakan Metode Examples Nonexamples .................. 111
BAB V SIMPULAN DAN SARAN ................................................................. 114
A. Simpulan .................................................................................... 114
B. Saran ....................................................................................... 115
