Tujuan dari penelitian ini yaitu: 1) memperoleh temuan mengenai *tourist experience* di Museum Benteng *Heritage* Kota Tangerang, 2) memperoleh temuan mengenai *behavioral intention* di Museum Benteng *Heritage* Kota Tangerang, 3) memperoleh temuan mengenai pengaruh *tourist experience* terhadap *behavioral intention* di Museum Benteng *Heritage* Kota Tangerang. Metode analisis yang digunakan yaitu deskriptif verifikatif dan regresi berganda. Data didapat melalui kuisioner yang disebarluaskan secara langsung dan juga *online* menggunakan *google form* lalu disebarluaskan dengan memberikan *link* dari *google form* tersebut melalui *line*, *whatsapp*, dan *instagram* kepada wisatawan yang pernah berkunjung sebanyak 100 responden. Berdasarkan hasil analisis tersebut, diperoleh hasil regresi berganda yaitu secara simultan *Tourist Experience* memiliki pengaruh yang signifikan terhadap *Behavioral Intention* yang ada di Museum Benteng *Heritage*. Namun, secara parsial disebutkan bahwa hanya sub variabel *entertainment* yang berpengaruh signifikan terhadap *Behavioral Intention*. Sub variabel *esthetic* memiliki nilai yang tertinggi, sedangkan nilai yang terendah terdapat pada penilaian sub variabel *escapism*.

Kata Kunci: pengaruh, *tourist experience*, *behavioral intention*.
