KATA PENGANTAR ................................................................. iv
UCAPAN TERIMA KASIH ................................................................. v
DAFTAR ISI ................................................................................. vi
DAFTAR GAMBAR ................................................................. xi
DAFTAR TABEL ............................................................................ xii

BAB I PENDAHULUAN
   A. Latar Belakang Masalah ..................................................... 1
   B. Rumusan Masalah ............................................................. 7
   C. Tujuan Penelitian ............................................................... 8
   D. Manfaat Hasil Penelitian .................................................... 9
   E. Definisi Operasional ........................................................... 11
       1. Pendekatan Keterampilan Proses .................................. 11
       2. Konsep Perubahan Wujud Benda ............................... 11
       3. Pembelajaran IPA Di Sekolah Dasar ............................. 12
       4. Hasil Belajar ................................................................. 13
   F. Hipotesis Tindakan ............................................................ 13
BAB II
MENINGKATKAN HASIL BELAJAR IPA TENTANG
PERUBAHAN WUJUD BENDA MELALUI PENDEKATAN
KETERAMPILAN PROSES

A. Konsep Hasil Belajar .......................................................... 14
B. Hasil Belajar ........................................................................ 16
C. Pendekatan Keterampilan Proses ........................................ 18

BAB III
METODE PENELITIAN

A. Metode, Model dan Alur Penelitian ...................................... 41
   1. Metode Penelitian ............................................................ 41
   2. Model Penelitian ............................................................... 41

B. Subyek dan Lokasi Penelitian ................................................. 48
   1. Subjek Penelitian .............................................................. 48
   2. Lokasi dan waktu penelitian ............................................. 48

C. Teknik dan Alat Pengumpulan Data ...................................... 49
   1. Teknik Pengumpul Data ................................................... 49
      a. Observasi ............................................................... 49
      b. Tes .......................................................................... 49
   2. Alat Pengumpul Data ...................................................... 49
      a. Pedoman Observasi .................................................. 49
      b. Sumber Tes .............................................................. 49

D. Teknik Pengolahan Data ......................................................... 50
   1. Teknik pengolahan Data hasil observasi ......................... 50
      a. Reduksi Data ........................................................ 50
b. Klasifikasi Data................................................................. 50

c. Display Data................................................................. 51

d. Interpretasi Data........................................................... 51

e. Refleksi............................................................................. 51

2. Teknik Pengolahan Data Hasil Tes .................................. 51
   a. Scoring........................................................................... 51
   b. Menghitung Rata – Rata................................................. 52

E. Analisis Data Hasil Tes......................................................... 52
   1. Scoring ........................................................................... 52
   2. Nilai Rata-rata .................................................................. 53

BAB IV HASIL PENELITIAN DAN PEMBAHASAN

A. Hasil Penelitian ................................................................... 54
   1. Tindakan Siklus I............................................................... 54
     a. Perencanaan................................................................. 54
     b. Pelaksanaan................................................................. 55
     c. Observasi........................................................................ 59
     d. Refleksi........................................................................... 62
   2. Tindakan Siklus II............................................................ 62
     a. Perencanaan................................................................. 62
     b. Pelaksanaan................................................................. 63
     c. Observasi atau Temuan.................................................. 65
     d. Refleksi........................................................................... 65
BAB V SIMPULAN DAN REKOMENDASI

A. Simpulan

1. Perencanaan

2. Pelaksanaan

3. Hasil

B. Rekomendasi

1. Bagi Siswa

2. Bagi Guru

3. Bagi Sekolah

DAFTAR PUSTAKA

LAMPIRAN-LAMPIRAN

A. Instrumen Penelitian Siklus I

B. Instrumen Penelitian Siklus II

C. Soal Penelitian Siklus I

D. Soal Penelitian Siklus II

E. Hasil Penelitian

F. Foto Aktivitas Guru dan Siswa

G. Surat-surat

RIWAYAT HIDUP PENULIS

Euis Dahlia Rahmawati, 2013
Meningkatkan Hasil Belajar IPA Tentang Perubahan Wujud Benda Melalui Pendekatan Keterampilan Proses (Penelitian Tindakan Kelas Dilakukan Di Semester I Pada Kelas II Tahun Pelajaran 2012-2013 Di SDN Tugu 3 Cimanggis Depok)
Universitas Pendidikan Indonesia | repository.upi.edu | perpustakaan.upi.edu
DAFTAR GAMBAR

Gambar 2.1. Contoh-contoh Benda Padat ................................................................. 37
Gambar 2.2. Contoh-contoh Benda Cair ................................................................. 38
Gambar 2.3. Contoh Perubahan Bentuk Benda ......................................................... 39
Gambar 2.4. Contoh Perubahan Wujud Benda ......................................................... 39
Gambar 2.5. Contoh Kegunaan Benda ..................................................................... 40
Gambar 3.1. Tahapan dalam PTK ............................................................................. 42
Gambar 3.2. Alur Penelitian Tindakan Kelas ......................................................... 45
Gambar 4.1. Ketuntasan Hasil Belajar Siklus I ......................................................... 58
Gambar 4.1. Ketuntasan Hasil Belajar Siklus II ....................................................... 64
Gambar 4.3. Perbandingan Aktifitas Guru dan Siswa Pada Siklus I dan II............. 67
DAFTAR TABEL

Tabel 3.1. Kategori Nilai Rata-rata Siswa ................................................................. 53
Tabel 3.2. Kategori Perolehan Persentase KKM Siswa ........................................ 53
Tabel 4.1. Data Hasil Penelitian Siklus I ................................................................. 58
Tabel 4.2. Data Hasil Penelitian Siklus II ................................................................. 63
