ACKNOWLEDGEMENT

First and foremost, *Alhamdulillahirabbil'alamiin*, the countless praises and the great gratitude are addressed to the almighty Allah SWT for His showers of blessings, for making everything possible, for turning the probabilities into beautiful miracles, and for giving me opportunities to meet many great people throughout my research work and during my study in Universitas Pendidikan Indonesia, Bandung.

I would like to express my deep and heartily gratitude to my thesis supervisor, Prof. Dr. Hj. Nenden Sri Lengkanawati, M.Pd., for her valuable advice, excellent guidance and encouragement throughout this research. Her beautiful heart, vision, sincerity and motivation have deeply inspired me. It was a great privilege and honor to work and study under her guidance. I am extremely grateful for what she has offered me. This thesis will not be here without her technical advices, patience, support and ultimate kindness.

I would also like to deliver my gratitude to the examiners, Prof. Dr. Didi Suherdi, M.Ed., Dr. Rojab Siti Rodiyah, M.Ed., Isti Siti Saleha Gandana, M.Ed., Ph.D., their advice, correction, and comments for me are really helpful to make this thesis better. Warmest honor is also addressed to all lecturers and staff of the English Department of Postgraduate Studies Universitas Pendidikan Indonesia, for the unlimited knowledge and help they have given.

I am also deeply thankful to the participants, Mrs. Refwetik Rozifa, S.Pd., and the students of Islamic Senior High School 1 Model, Bukittinggi, for kindheartedly participating in this study. I want to acknowledge and appreciate their help hands, great willingness, time, opportunity, and cooperative participations in accomplishing this study.

I offer my deepest gratitude to my parents, Papa Joneidi and Mama Elwis Asmel, for their endless prayers, love, and sacrifices. I really value their trust, support and strong confidence in my achievement. They have become a constant source of

strength in each journey I take. To my siblings, Uni Rabiatal adawiyah, Riyadhus Sa'adah, Mujibur Rahman, and Afifah Asriati, thank you all for your companionship, support and valuable prayers throughout the time of my study. My special thanks go to the members of my big family for their support and prayers for me. They are the ones who have made this thesis a reality by having faith in me and for instilling in me the courage to strive and achieve the higher goals in my life.

I would like to thank all my friends in class of 2016 in English Education Study Program, for their help, support and for all those light and cheerful moments that I shared with them during my research and my study in Bandung. I was lucky to be a part of such a group filled with learning experiences.

Due to shortage of space, mentioning everybody's name is not feasible. Nevertheless, my thanks go to all the people who have supported me to complete the research work directly or indirectly, may Allah reward you abundantly.

This thesis is not perfect because it still has the weaknesses both in language and content. Therefore, I really hope the criticism and suggestions from the readers to make this thesis better. Finally, hopefully, this thesis would give the advantages both for me and the readers.
