

## ACKNOWLEDGEMENTS

*Prima facie*, I am grateful to Allah SWT for blessing me with the good health that was necessary to complete this research paper. It is not only for my physical and mental wellbeing, but also for the great opportunity to learn many things that come with the process of composing this research paper.

I give my utmost gratitude to my family: my father, my mother, my little brother, and my aunt, who kept the fiery spirit inside of me. Their constant supports even in the most stressing point of the process were what inspired me to keep going and face the storm.

I also give my sincere gratitude to my research supervisors: Mr. Eri Kurniawan and Mr. Ruswan Dallyono, for their patience, motivation, and immense knowledge. Without their guidance and involvement in every step of the process, this paper would have never been accomplished. I could not have imagined having better supervisors for my research.

My research paper was far from perfect, and I would like to give my special thanks to my examiners: Mr. Riesky, Mrs. Ernie Imperiani, and Mr. Budi Hermawan, for their supports and guidance in helping me to revise the big hole of the study. Their constructive criticisms and patience have ‘constructed’ my research paper to be a better skyscraper than before.

I have to thank all lecturers and English Language and Literature study program members for their help and support for these four years. The great opportunity to learn various interesting knowledge in the field of linguistics and literature is a gem that I would never forget.

Getting through the process of writing this research paper required more than academic support, and I express my warm thanks to those people who have supported me mentally and physically through the beautiful friendships: All members of “Class of Bees” who have tolerated me and made my four-year college life memorable and full of rainbows and sprinkles of joy; Farrah

Halimatussadyah, my great supporter who was always by my side in days, nights, and late-night talks; Windri Agriaz Muntaha and Gina Hertina Nurazizah who have lent their shoulders for me to cry on and their ears for listening to me; and my partners in *Mangga Wisuda* group who have helped me through the supervising process: Gifta Annisa Auni, Ari Tiara, and Janriko Abdussalam Sadiq.

Also, for all people who have lent their hands, made me laugh, and patted my back directly or indirectly, I am grateful to all of you.

*Grātiās vōbīs agō!*
