## **ABSTRACT**

**Siti Habibah (1406135). "Study of Al-Murabby Student Librarians (Case Study of Student Librarians Development at Religious School in Bandung City)".** Thesis, Library and Information Science Study, Curriculum and Technology Education Department, Faculty of Education, Bandung 2018.

*Involvement of Student Librarians in organizing school libraries can help the task of library staff and help members of student librarians have a sense of ownership of the library. However, the results of the preliminary study show the existence of Student Librarians at the religious school level of Madrasah Aliyah (MA) only in MAN 1 Bandung City. This study aims to determine the model of the Al-Murabby Student Librarian by analyzing the analysis of its formation needs, including recruitment and selection, guidance, control and reviewing the description of its activities including work assignments / programs and awards. The approach used is qualitative with a case study method. Data collection is done using interview techniques, observation and documentation studies. The informants of this study consisted of key informants, student librarians, librarians, and student librarians who were determined through purposive sampling technique. Data analysis techniques used were data reduction, data display and conclusion drawing. The results showed that the recruitment of Al-Murabby Student Librarians was carried out by introducing student librarians, inviting students who were interested in becoming student librarians, and providing registration forms. Select it by interviewing students who register. Coaching is carried out with routine coaching and coaching the orientation of student librarians. Control is done by looking at the attendance list and monitoring the work program that is done. The assignments / work programs of the Al-Murabby Student Librarians are information updates, literacy activists, sharing, library pick-ups, and being involved in library events. Awards obtained by Al-Murabby Student Librarians such as possessing the identity of student librarians and displaying photos of student librarians and granting privileges for borrowing library books. It is hoped that the findings of this study can provide a reference for the development of student librarians in the Bandung religious school.*
