PERNYATAAN .........................................................................................................................i
KATA PENGANTAR .................................................................................................................iii
UCAPAN TERIMAKASIH ............................................................................................................v
ABSTRAK .................................................................................................................................vii
DAFTAR ISI ...............................................................................................................................xi
DAFTAR TABEL ..........................................................................................................................xiii
DAFTAR GAMBAR ......................................................................................................................xv
DAFTAR LAMPIRAN ..................................................................................................................xvii

BAB I PENDAHULUAN .................................................................................................................1

1.1 Latar Belakang Penelitian ..................................................................................................1
1.2 Identifikasi Masalah Penelitian ......................................................................................4
1.3 Pertanyaan Penelitian .....................................................................................................4
1.4 Tujuan Penelitian ...........................................................................................................5
1.5 Manfaat Penelitian .........................................................................................................5

BAB II LANDASAN TEORI ...........................................................................................................7

2.1 Ketunetraan ....................................................................................................................7
2.2 Orientasi dan Mobilitas ................................................................................................14
2.3 Aksesibilitas Lingkungan Fisik bagi Tunanetra .........................................................30
2.4 Peran Keluarga dalam O&M .......................................................................................33
2.5 Konsep Produk Pengembangan O&M Tunanetra .......................................................35
2.6 Kerangka Berfikir ..........................................................................................................36

BAB III METODE PENELITIAN ....................................................................................................39

3.1 Pendekatan Penelitian ..................................................................................................39
3.2 Desain Penelitian ..........................................................................................................41
3.3 Prosedur Penelitian ......................................................................................................41
3.4 Tempat Penelitian dan Partisipan ...............................................................................44
3.5 Teknik Pengumpulan Data ........................................................................................45
3.6 Instrumen Penelitian ....................................................................................................46
3.7 Teknik Analisis Data ...................................................................................................60
3.8 Etika Penelitian .............................................................................................................61

PANDUAN ORIENTASI DAN MOBILITAS BAGI ORANGTUA TUNANETRA
Universitas Pendidikan Indonesia | repository.upi.edu | perpustakaan.upi.edu
BAB IV HASIL DAN PEMBAHASAN ........................................... 63
  4.1 Kemampuan O&M Anak Tunanetra ................................. 63
  4.2 Hambatan dalam Pembelajaran O&M ............................... 74
  4.3 Pemahaman Orangtua Mengenai O&M ............................. 81
  4.4 Peran Serta Orangtua Mengajarkan O&M .......................... 84
  4.5 Buku Panduan Pembelajaran O&M bagi Orangtua.............. 89

BAB V KESIMPULAN DAN REKOMENDASI
  5.1 Kesimpulan ......................................................................... 101
  5.2 Rekomendasi ....................................................................... 102

DAFTAR PUSTAKA ......................................................................... 105
LAMPIRAN-LAMPIRAN .............................................................. 115
RIWAYAT HIDUP
DAFTAR TABEL

Tabel 2.1. Klasifikasi Ketajaman Penglihatan .............................8
Tabel 3.1. Kisi-Kisi Pedoman Observasi .........................................47
Tabel 3.2. Pedoman Observasi ........................................................48
Tabel 3.3. Pedoman Observasi Orangtua
dalam Mengajarkan O&M ......................................................50
Tabel 3.4. Pedoman Wawancara .......................................................52
Tabel 3.5. Lembar Validasi Kelayakan Buku .................................54
Tabel 3.6. Instrumen Wawancara Uji Keterlaksanaan .......................57
Tabel 3.7. Instrumen Penilaian Uji Keterlaksanaan ...........................58
Tabel 4.1. Kemampuan Anak Menyebutkan Anggota Tubuh..............65
Tabel 4.2. Kemampuan Anak Menunjukkan Anggota Tubuh.............67
Tabel 4.3. Kemampuan Anak Menggerakkan Anggota Tubuh............68
Tabel 4.4. Perubahan Sebelum dan Sesudah Validasi ......................93
Tabel 4.5. Hasil Wawancara Uji Keterlaksanaan .............................95
Tabel 4.6. Hasil Penilaian Uji Keterlaksanaan ..................................98
DAFTAR GAMBAR

Tabel 3.1. Desain Penelitian..........................................................41
Tabel 4.1. Piramida Belajar Orientasi dan Mobilitas .....................90
DAFTAR LAMPIRAN

Lampiran Pedoman Observasi ................................................................. 116
Lampiran Hasil Observasi ................................................................. 125
Lampiran Wawancara ........................................................................ 134
Lampiran Hasil Koding Keseluruhan ............................................. 145
Lampiran Uji Kelayakan Buku ........................................................ 184
Lampiran Buku Panduan .................................................................. 188
Lampiran Administrasi .................................................................... 234
