BAB I PENDAHULUAN .......................................................................................... 1

1.1 Latar Belakang .................................................................................................... 1

1.2 Identifikasi dan Perumusan Masalah ................................................................ 16

1.3 Tujuan Penelitian ............................................................................................. 17

1.4 Kegunaan Penelitian ....................................................................................... 18

BAB II KERANGKA TEORITIS .............................................................................. 20

2.1 Kajian Pustaka .................................................................................................. 20

2.1.1 Konsep Standar Operasional Prosedur Kredit .............................................. 20

2.1.3 Konsep Efektivitas kerja ............................................................................. 29

2.2 kerangka pemikiran ......................................................................................... 35

2.3 Hipotesis ........................................................................................................... 40

BAB III DESAIN PENELITIAN .............................................................................. 41

3.1 Objek Penelitian ............................................................................................... 41

3.2 Metode Penelitian ........................................................................................... 42

3.3 Operasionalisasi Variabel .............................................................................. 44

3.3.1 Operasionalisasi Variabel Standar Operasional Prosedur ............................ 44

3.3.2 Operasionalisasi variabel efektivitas kerja .................................................. 46

3.5 Populasi Penelitian.................................................................................................48
3.6 Teknik dan Alat Pengumpulan Data ........................................................................49
3.7 Pengujian Instrumen Penelitian...............................................................................50
  3.7.1 Uji Validitas .......................................................................................................51
  3.7.2 Uji Reliabilitas ..................................................................................................53
3.8 Pengujian Persyaratan Analisis Data.........................................................................55
  3.8.1 Uji Normalitas ....................................................................................................55
  3.8.2 Uji Linieritas ......................................................................................................57
3.9 Teknik Analisis Data................................................................................................60
  3.9.1 Teknik Analisis Data Deskriptif ........................................................................61
  3.9.2 Teknik Analisis Data Inferensial .......................................................................62
3.10 Pengujian Hipotesis ...............................................................................................65

BAB IV HASIL PENELITIAN DAN PEMBAHASAN ..................................................68
4.1 Hasil Penelitian .......................................................................................................68
  4.1.1 Gambaran Umum Hasil Penelitian ..................................................................68
  4.1.2 Gambaran karakteristik ....................................................................................69
  4.1.3 Hasil Uji Coba Penelitian Instrumen .................................................................70
  4.1.4 Deskripsi Variabel ............................................................................................74
  4.1.5 Pengujian Persyaratan Analisis Data .................................................................88
4.2 Pembahasan ............................................................................................................93
  4.2.1 Standar Operasional Prosedur Kredit ...............................................................93
  4.2.2 Efektivitas Kerja Karyawan .............................................................................97
  4.2.3 Pengaruh Standar Operasional Prosedur Kredit Terhadap Efektivitas
    Kerja Karyawan .......................................................................................................101

BAB V KESIMPULAN ......................................................................................................103
5.1 Kesimpulan ..........................................................................................................103
5.2 Saran ....................................................................................................................104
