LEMBAR PENGESAHAN................................................................. i
PERNYATAAN.................................................................................. ii
KATA PENGANTAR........................................................................ iii
UCAPAN TERIMA KASIH............................................................... iv
ABSTRAK....................................................................................... v
DAFTAR ISI.................................................................................... vi
DAFTAR TABEL................................................................................ viii
DAFTAR GAMBAR............................................................................ ix
DAFTAR LAMPIRAN......................................................................... x

BAB I: PENDAHULUAN..................................................................... 1
A. Latar Belakang............................................................................ 1
B. Rumusan Masalah................................................................. 5
C. Tujuan Penelitian................................................................. 5
D. Manfaat Penelitian............................................................... 6
E. Batasan Penelitian............................................................... 6
F. Definisi Operasional........................................................... 7

BAB II: TINJAUAN TEORITIS, KERANGKA BERFIKIR, DAN HIPOTESIS 9
A. Tinjauan Teoritis................................................................. 9
1. Bola Tangan ........................................................................... 9
2. Kondisi Fisik........................................................................... 13
3. Arthrologi Umum.................................................................. 16
4. Kontribusi Fleksibilitas Pergelangan Tangan dan Fleksibilitas Pinggang terhadap Hasil Standing Shoot.............................. 20
5. Latihan untuk Meningkatkan Fleksibilitas Pergelangan Tangan dan Fleksibilitas Pinggang............................................... 21
B. Kerangka Berfikir............................................................... 25
C. Hipotesis.................................................................................. 26

BAB III: METODELOGI PENELITIAN............................................. 27
A. Metode Penelitian.............................................................. 27
B. Variabel dan Prosedur Penelitian................................................................. 28
   1. Variabel Penelitian.................................................................................. 28
   2. Prosedur Penelitian................................................................................. 29
C. Populasi dan Sampel Penelitian................................................................. 31
   1. Populasi Penelitian.................................................................................. 31
   2. Sampel Penelitian.................................................................................... 31
D. Tempat dan Waktu Penelitian................................................................. 32
E. Instrumen Penelitian.................................................................................. 32
F. Prosedur Pengolahan dan Analisis Data................................................. 40

BAB IV: PENGOLAHAN DAN ANALISIS DATA........................................... 43
   A. Hasil Pengolahan Data............................................................................ 43
   B. Uji Signifikan Koefisien Korelasi.......................................................... 45
   C. Diskusi Penemuan.................................................................................. 47

BAB V: KESIMPULAN DAN SARAN............................................................... 53
   A. Kesimpulan............................................................................................. 53
   B. Saran....................................................................................................... 53
