KATA PENGANTAR ......................................................................................... ii
UCAPAN TERIMA KASIH ............................................................................... iii
DAFTAR ISI ..................................................................................................... v
DAFTAR TABEL ............................................................................................... vii
DAFTAR GAMBAR ........................................................................................... viii
DAFTAR DIAGRAM ......................................................................................... ix
DAFTAR LAMPIRAN ......................................................................................... x

BAB I PENDAHULUAN
A. Latar Belakang Masalah .............................................................................. 1
B. Rumusan Masalah ....................................................................................... 4
C. Tujuan Penelitian ......................................................................................... 4
D. Pentingnya Penelitian ................................................................................... 4
E. Manfaat Penelitian ....................................................................................... 5
F. Definisi Operasional ..................................................................................... 5

BAB II STUDI LITERATUR
A. Pembelajaran Matematika .......................................................................... 7
B. Tujuan Mata Pelajaran Matematika di SD ................................................. 8
C. Ruang Lingkup Pembelajaran Matematika di SD .................................... 8
D. Model Pembelajaran Inkuiri ...................................................................... 9
  1. Pengertian model pembelajaran inkuiri .................................................. 9
  2. Ciri utama model inkuiri ......................................................................... 9
  3. Prinsip penggunaan model pembelajaran inkuiri ................................. 10
  4. Langkah-langkah model pembelajaran inkuiri .................................... 11
  5. Keunggulan Model Inkuiri .................................................................. 13
E. Pemahaman Matematik ............................................................................. 14
F. Simetri Lipat ......................................................................................... 15
G. Teori Belajar yang Berkaitan dengan Model Pembelajaran
   Inkuiri ........................................................................................................ 17
   1. Teori Belajar Jerome S. Bruner ............................................................. 17
   2. Teori Belajar Jean Piaget ..................................................................... 17
   3. Teori Perkembangan Geometri Van Hiele ....................................... 20
H. Pembelajaran Simetri Lipat dengan Model Pembelajaran
   Inkuiri ........................................................................................................ 21
I. Hasil Penelitian yang Relevan ................................................................. 22
J. Hipotesis .................................................................................................. 24

BAB III METODE PENELITIAN
A. Subjek Penelitian ..................................................................................... 25
   1. Populasi ............................................................................................... 25
   2. Sampel ............................................................................................... 27
B. Metode dan Desain Penelitian .............................................. 28
C. Variabel Penelitian ................................................................. 29
D. Instrumen Penelitian ................................................................. 29
  1. Instrumen Tes ................................................................. 30
  2. Instrumen Non Tes .......................................................... 37
E. Prosedur Penelitian ................................................................. 38
  1. Tahap Perencanaan ...................................................... 38
  2. Tahap Pelaksanaan ...................................................... 39
  3. Tahap akhir ................................................................. 39
F. Pengolahan dan Analisis Data .................................................. 39
  1. Analisis Data Kuantitatif ............................................. 40
  2. Analisis Data Kualitatif ............................................. 42

BAB IV HASIL PENELITIAN DAN PEMBAHASAN
A. Analisis Data Kuantitatif .................................................. 45
  1. Analisis Data Hasil Pretes ........................................... 45
  2. Analisis Data Hasil Postes .......................................... 52
  3. Analisis Gain Normal.................................................... 58
B. Uji Hipotesis ................................................................. 64
  1. Uji Hipotesis Rumusan Masalah 1 ................................ 64
  2. Uji Hipotesis Rumusan Masalah 2 ................................ 68
  3. Uji Hipotesis Rumusan Masalah 3 ................................ 70
C. Analisis Data Kualitatif .................................................. 73
  1. Analisis Skala Sikap Siswa ......................................... 74
  2. Analisis Hasil Observasi ........................................... 78
  3. Hasil Wawancara ........................................................ 83
D. Data Proses Pembelajaran .................................................. 84
  1. Proses Pembelajaran di Kelas Kontrol ............................... 84
  2. Pembelajaran Kelas Eksperimen .................................... 85
E. Temuan dan Pembahasan ................................................... 86
  1. Model Pembelajaran Inkuiri Dalam Meningkatkan
     Pemahaman Siswa ....................................................... 86
  2. Pembelajaran Konvensional Dalam Meningkatkan
     Pemahaman Siswa ....................................................... 88
  3. Peningkatan Pemahaman Antara Siswa yang Belajar
     dengan Menggunakan Model Pembelajaran Inkuiri Terbimbing
     dan Siswa yang Belajar dengan Pembelajaran
     Konvensional .......................................................... 89
  4. Respon Siswa Terhadap Pembelajaran Matematika ........... 90

BAB V PENUTUP
A. Kesimpulan ................................................................. 92
B. Saran ................................................................. 94

DAFTAR TABEL

3.1 Daftar Perolehan Nilai UN Kelompok Tinggi ................................ 25
3.2 Daftar Perolehan Nilai UN Kelompok Sedang ................................ 25
3.3 Daftar Perolehan Nilai UN Kelompok Rendah ................................ 26
3.4 Klasifikasi Koefisien Validitas .................................................. 31
3.5 Validitas Tiap Butir Soal Tes Pemahaman Matematik ...................... 31
3.6 Klasifikasi Koefisien Korelasi ..................................................... 32
3.7 Klasifikasi Indeks Kesukaran ...................................................... 33
3.8 Analisis Tingkat Kesukaran .......................................................... 34
3.9 Persentase Tingkat kesukaran Soal ............................................. 34
3.10 Klasifikasi Daya Pembeda .......................................................... 35
3.11 Daya Pembeda Butir Soal .......................................................... 35
3.12 Butir Soal yang Dipakai untuk Pretes dan Postes ......................... 36
3.13 Kriteria tingkat N-Gain ............................................................... 42
3.14 Kriteria tingkat N-Gain ............................................................... 43
3.15 Kategori Angket Sesuai Skala Likert ...................................... 44
4.1 Data Hasil Pretes Kelas Kontrol .................................................. 46
4.2 Data Hasil Pretes Kelas Eksperimen .......................................... 47
4.3 Uji Normalitas Kemampuan Pemahaman .................................. 49
4.4 Uji Homogenitas Soal Pretes Kemampuan Pemahaman ............... 51
4.5 Uji Perbedaan Rata-rata Soal Pretes Kemampuan Pemahaman ...... 52
4.6 Data Hasil Postes Kelas Kontrol ............................................... 53
4.7 Data Hasil Postes Kelas Eksperimen .......................................... 54
4.8 Hasil Uji Normalitas Data Postes .............................................. 56
4.9 Hasil Uji Perbedaan Dua Rata-rata Data Postes ......................... 57
4.10 Gain Normal Kelas kontrol ....................................................... 58
4.11 Gain Normal Kelas Eksperimen ............................................... 59
4.12 Statistik Deskriptif Gain pada Kedua Kelompok ......................... 60
4.13 Uji Normalitas Gain ................................................................. 62
4.14 Uji Homogenitas gain .............................................................. 63
4.15 Hasil Uji Perbedaan Dua Rata-rata Gain .................................. 64
4.16 Uji Normalitas Rumusan Masalah 1 ......................................... 65
4.17 Uji Homogenitas Rumusan Masalah 1 ...................................... 66
4.18 Uji Perbedaan Dua Rata-rata Rumusan Masalah 1 ..................... 67
4.19 Uji Normalitas Rumusan masalah 2 ......................................... 68
4.20 Uji Perbedaan Dua Rata-rata Rumusan Masalah 2 ..................... 69
4.21 Uji Normalitas Gain Rumusan Masalah 3 .................................. 71
4.22 Uji Homogenitas gain Rumusan Masalah 3 ............................... 72
4.23 Hasil Uji Perbedaan Dua Rata-rata Gain Rumusan Masalah 3 ....... 73
4.24 Pernyataan Positif pada Skala Sikap Siswa ............................... 74
4.25 Pernyataan Negatif pada Skala Sikap Siswa ............................... 77
4.26 Persentase Hasil Observasi Kinerja Guru Kelas Kontrol .............. 79
4.27 Persentase Hasil Observasi Kinerja Guru Kelas Eksperimen ......... 80
4.28 Hasil Observasi Aktivitas Siswa ................................................. 83
