CHAPTER	PAGE
ACKNOWLEDGMENTS	i
DECLARATION.....	iv
ABSTRACT	v
ABSTRAK	vi
TABLE OF CONTENTS.....	vii
LIST OF FIGURES	x
LIST OF TABLES.....	xiv
LIST OF APPENDICES.....	xvii
CHAPTER 1 INTRODUCTION.....	1
1.1. Background	1
1.2. Statement of Problem and Research Question	9
1.3. Research Objectives.....	10
1.4. Advantages of Research.....	10
1.5. Definition of Important Terms	12
CHAPTER 2 LITERATURE REVIEW	14
2.1. The Concept of Multiple Representation	14
2.2. Representation Use from Dual-Coding Theory (DCT)	24
2.3. The Role of Multiple Representation in Learning Sciences	27
2.4. The Multiple Representations in Learning and Teaching Physics: Some Benefits	39
2.5. Previous research Focusing on Quantum Physics Concept	47
2.6. Quantum Physics Concepts and Its Representation.....	51
2.6.1 The Photoelectric Effect.....	54
2.6.2 Bohr's Atom Model.....	57
2.6.3 The Schrodinger Equation Concept.....	62
2.7. The Concept of Critical Thinking Disposition (CTD).....	66
2.8. The Concept of Generic Science Skills (GSS).....	71

CHAPTER 3 METHODOLOGY	74
3.1. Research Paradigm and Design	74
3.2. The Population and the Sample of the Research	82
3.3. The Description of Variables of Study	83
3.4. Instruments	84
3.4.1 Pilot Study of Quantum Physics Concept Achievement.....	85
3.4.2 Pilot Study of Generic Science Skills-Concept Integrated	89
3.4.3 Pilot Study of Critical Thinking Disposition-Concept Integrated.....	89
3.4.4 Pilot Study of Re-representation Skills Inventory.....	89
3.4.5 Focus Group Discussion Guide Question and Interview Task Protocol (ITP).....	90
3.5. The Design of Quantum Physics Instruction Based on Multiple Representation	92
3.6. Data Analysis Procedure.....	99
3.6.1 Quantitative Data Analyses.....	102
3.6.2 Qualitative Data Analyses.....	102
CHAPTER 4 RESULTS AND DISCUSSION.....	104
4.1. Quantitative Data Analyses Results.....	104
4.1.1. Descriptive Analyses Results for Students' Quantum Physics Mastery	104
4.1.2. Descriptive Analyses Results for Student's Generic Skills ...	113
4.1.3. Descriptive Analyses Result for Students' Critical Thinking Disposition	123
4.1.4 Descriptive Analyses Results for Students' Re- Representation Skills Inventory (RSI).....	134
4.1.5. Inferential Statistics Analyses for Students' Quantum Physics Concept Achievements and Findings.....	138
4.1.6. Inferential Statistics Analyses for Students' Generic Science Skills and Findings	140

4.1.7. Inferential Statistics Analyses for Students' Critical Thinking Disposition and Findings	145
4.1.8. Inferential Statistics Analyses for Re-representation Skills and Findings	150
4.2. Qualitative Data Analyses	151
4.2.1. The Results of Focus Group Discussion	152
4.2.2. The Results of Open-Ended Semi Structure Interview	155
4.3. Discussion of the Research Results	157
4.3.1. Discussion of Results for Quantitative Study	158
4.3.2. Discussion of Results for Qualitative Investigation.....	184
CHAPTER 5 CONCLUSION AND IMPLICATION.....	199
5.1. Conclusion.....	199
5.2. Implications of Study	200
5.3. Recommendation for Future Research.....	204
REFERENCES	206
APPENDICES.....	214

LIST OF FIGURES

FIGURE	PAGE
Figure 2.1 A Function Taxonomy of MERs	15
Figure 2.2 Pictorial Representation of Two Cars	19
Figure 2.3 Alternative Meanings Derived from a Single Representation	19
Figure 2.4 Peirce's Triadic Model.....	20
Figure 2.5 Four Different Representation of a car	24
Figure 2.6 A Model of Cognition using Multiple Representation Based on Dual Coding Theory.....	25
Figure 2.7 Teacher Imposition	33
Figure 2.8 Teacher Abdication	34
Figure 2.9 Teacher as Domain Novice	35
Figure 2.10 Teacher in Trialogue	36
Figure 2.11 Triadic Pedagogical Model	37
Figure 2.12 The Proposal for a Starting Point of a Novel Course for Quantum Physics.....	50
Figure 2.13 Nearly Isomorphic Problem in Graphical and Pictorial/ Diagrammatic Format Bohr-Model Electron Orbit Radii	51
Figure 2.14 A Schematic Representation of the Photoelectric Effect	55
Figure 2.15 Graphical representation that showed dependency of Photocurrent (i) on light Intensity (I)	56
Figure 2.16 Graphical Representation for V_0 vs	57
Figure 2.17 Pictorial Representation for Hydrogen Atom's Spectral	59
Figure 2.18 Pictorial Representations for Spectral Lines	62
Figure 3.1 Reasoning Diagram of Framework of the Research.....	76
Figure 3.2 Embedded Research Design	78
Figure 3.3 The Visual Representation of Research design for Quantitative Study.....	78
Figure 3.4 The <i>trialogue</i> style using IF-So frame work	92

Figure 3.5 The Characteristic of the Instructional Environmental Design of a Multiple Representation based on IF-So Framework	93
Figure 3.6 The Multiple Representation of some phenomenon Photoelectric Effect	95
Figure 3.7 Sequential Mixed Method Data Analyses Procedure	101
Figure 4.1 Average Score of Students' concepts mastery for Control Group (CG)	107
Figure 4.2 Average Score of Students' concepts mastery for Experimental Group (EG)	108
Figure 4.3 N-gain Score of Students' concepts mastery for CG and EG	109
Figure 4.4 Clustered boxplot of the Pre and Post score of photoelectric Effect concepts for CG and EG.....	109
Figure 4.5 Clustered boxplot of the Pre and Post score of Bohr's atom model for CG and EG.....	110
Figure 4.6 Clustered boxplot of the Pre and Post score of Schrodinger Equation concepts for CG and EG	111
Figure 4.7 Clustered boxplot of the N-gain of students' concepts Achievement for the EG and CG	112
Figure 4.8 Pre and Post Average Score of GSSPE for both EG and CG.....	113
Figure 4.9 N-gain Score of GSSPE for EG and CG.....	114
Figure 4.10 Clustered boxplot of the GSSPE for the CG and EG.....	116
Figure 4.11 Pre and Post Average Score of GSSBA for both EG and CG.....	117
Figure 4.12 N-gain Score of GSSBA for EG and CG	118
Figure 4.13 Clustered boxplot of the GSSBA for CG and EG	119
Figure 4.14 Pre and Post Average Score of GSSSE for both EG and CG.....	120
Figure 4.15 N-gain Score of GSSSE	121
Figure 4.16 Clustered boxplot of the GSSSE for CG and EG	122

Figure 4.17 Pre and Post Average Score of CTDPE for both EG and CG.....	124
Figure 4.18 N-gain Score for CTDPE	125
Figure 4.19 Clustered boxplot of the CTDIPEC for CG and EG.....	126
Figure 4.20 Pre and Post Average Score of CTDBA for both EG and CG.....	127
Figure 4.21 N-gain Score for CTDBA	128
Figure 4.22 Clustered boxplot of the CTDBA for CG and EG.....	129
Figure 4.23 Pre and Post Average Score of CTDSE for both EG and CG.....	131
Figure 4.24 N-gain Score for CTDSE	132
Figure 4.25 Clustered boxplot of the CTDSE for CG and EG.....	133
Figure 4.26 Pre and Post Average Score of RSI for EG and CG.....	136
Figure 4.27 N-gain Score of RSI for both EG and CG.....	136
Figure 4.28 Clustered boxplot of the RSI for CG and EG.....	137
Figure 4.29 Clustered boxplot of the N-gain RSI for EG and CG	138
Figure 4.30 Photoelectric Effect Simulation from PhET.....	161
Figure 4.31 Students' Activity in Virtual Laboratory For Photoelectric Effect Experiment.....	162
Figure 4.32 Students' multiple Representations embedded in their arguments.....	163
Figure 4.33 Students' Written Analogy to explain Photoelectric Effect .	165
Figure 4.34 Virtual Experiment of Hydrogen's atom.....	167
Figure 4.35 Students' written analogy to explain why the atom has Different energy level.....	168
Figure 4.36 Students' Written on Bohr's Atom Model related to other Model.....	170
Figure 4.37 Students' Written an embedded Multiple Representation in Explaining Electron Energy in Transition (verbal, mathematical, bar-chart energy).....	171
Figure 4.38 Quantum Tunneling and Wave Packet simulation	1742

Figure 4.39 (A) Square Barrier and (B) students' sketch wave function In region A, B, and C.....	173
Figure 4.40 Students' respond for tunneling energy concept	176
Figure 4.41 Students' self Confidence observation.....	181
Figure 4.42 Students' re-representations skills on photoelectric effect...	183
Figure 4.43 The structure of teacher base knowledge	197

LIST OF TABLES

TABLE	PAGE
Table 3.1 Summary of Research design	80
Table 3.2 Classification of Variables.....	83
Table 3.3 Internal Validity of and Difficulty Indices of QPS related to photoelectric effect concepts	86
Table 3.4 Internal Validity of and Difficulty Indices of QPS related to Bohr's atom model concepts.....	87
Table 3.5 Internal Validity of and Difficulty Indices of QPS related to Schrodinger's equation concepts	88
Table 3.6 The Construct of Lesson Plan for Experimental Group.....	98
Table 4.1 Descriptive statistics related to the scores from photoelectric effect concepts , Bohr's atom model concepts , and Schrodinger's equation concepts for experimental and control groups	106
Table 4.2 Descriptive Statistic Related to the Scores of RSI for both Experimental Group and Control Group.....	135
Table 4.3 <i>Mann-Whitney U</i> Test Statistics for Pre-measure of QPS for students' quantum physics achievement ($\alpha=0.05$, 2-tailed)	139
Table 4.4 <i>Mann-Whitney U</i> Test Statistics for Post- measure of QPS for students' quantum physics achievement ($\alpha=0.05$, 2-tailed)	139
Table 4.5 Mann-Whitney U Test Statistics for N-gain of QPS for students' quantum physics achievement ($\alpha=0.05$, 2-tailed)	140
Table 4.6 Mann-Whitney U Test Statistics for Pre-GSSPE ($\alpha=0.05$, 2-tailed)	140
Table 4.7 Mann-Whitney U Test Statistics for Post-GSSPE ($\alpha=0.05$, 2-tailed)	141
Table 4.8 Mann-Whitney U Test Statistics for N-gain of GSSPE ($\alpha=0.05$, 2-tailed)	142

Table 4.9 Mann-Whitney U Test Statistics for Pre-GSSBA	
($\alpha=0.05$, 2-tailed)	142
Table 4.10 Mann-Whitney U Test Statistics for Post-GSSBA	
($\alpha=0.05$, 2-tailed)	143
Table 4.11 Mann-Whitney U Test Statistics for N-gain of GSSBA	
($\alpha=0.05$, 2-tailed)	143
Table 4.12 Mann-Whitney U Test Statistics for Pre-GSSSE	
($\alpha=0.05$, 2-tailed)	144
Table 4.13 Mann-Whitney U Test Statistics for Post-GSSSE	
($\alpha=0.05$, 2-tailed)	144
Table 4.14 Mann-Whitney U Test Statistics for N-gain of GSSSE	
($\alpha=0.05$, 2-tailed)	145
Table 4.15 Mann-Whitney U Test Statistics for Pre-CTDPE	
($\alpha=0.05$, 2-tailed)	146
Table 4.16 Mann-Whitney U Test Statistics for Post-CTDPE	
($\alpha=0.05$, 2-tailed)	146
Table 4.17 Mann-Whitney U Test Statistics for N-gain of CTDPE	
($\alpha=0.05$, 2-tailed)	147
Table 4.18 Mann-Whitney U Test Statistics for Pre-CTDBA	
($\alpha=0.05$, 2-tailed).....	147
Table 4.19 Mann-Whitney U Test Statistics for Post-CTDBA	
($\alpha=0.05$, 2-tailed).....	148
Table 4.20 Mann-Whitney U Test Statistics for N-gain of CTDBA	
($\alpha=0.05$, 2-tailed).....	148
Table 4.21 Mann-Whitney U Test Statistics for Pre-CTDSE	
($\alpha=0.05$, 2-tailed).....	149
Table 4.22 Mann-Whitney U Test Statistics for Post-CTDSE	
($\alpha=0.05$, 2-tailed).....	149
Table 4.23 Mann-Whitney U Test Statistics for N-gain of CTDSE	
($\alpha=0.05$, 2-tailed).....	150

Table 4.24 Mann-Whitney U Test Statistics for Pre, Post, and N-gain of RSI ($\alpha=0.05$, 2-tailed)	150
Table 4.25 Summary of Important Findings of the Research	198

LIST OF APPENDICES

APPENDIX	PAGE
Appendix A Lesson Plan	214
Appendix B Students Worksheet	221
Appendix C Quantum Physics Survey (QPS).....	227
Appendix D Re-representation Skill Inventory (RSI)	284
Appendix E Rubrics	289
Appendix F Focus Group Discussion Questions List.....	292
Appendix G Interview Task Protocol.....	294
Appendix H <i>Mann-Whitney U Test Statistics Analyze</i> for Concept Mastery	296
Appendix I <i>Mann-Whitney U Test Statistics Analyze</i> for GSS	299
Appendix J <i>Mann-Whitney U Test Statistics Analyze</i> for CTD	308
Appendix K <i>Mann-Whitney U Test Statistics Analyze</i> for RSI.....	317
