KATA PENGANTAR ........................................................................................................... i
UCAPAN TERIMA KASIH ................................................................................................. ii
ABSTRAK ........................................................................................................................... iii
DAFTAR ISI ......................................................................................................................... v
DAFTAR TABEL .................................................................................................................... vii
DAFTAR GAMBAR ............................................................................................................... viii
DAFTAR LAMPIRAN ........................................................................................................... ix

BAB I PENDAHULUAN
A. Latar Belakang .................................................................................................................. 1
B. Rumusan Masalah ........................................................................................................... 9
C. Tujuan Penelitian ............................................................................................................ 9
D. Manfaat Penelitian ......................................................................................................... 10
E. Batasan Penelitian .......................................................................................................... 10
F. Batasan Istilah .................................................................................................................. 11
G. Metode Penelitian .......................................................................................................... 12

BAB II KAJIAN TEORETIS, KERANGKA BERPIKIR DAN HIPOTESIS
A. Kajian Teoretis ............................................................................................................... 14
   1. Belajar dan Pembelajaran Pendidikan Jasmani ......................................................... 14
      a. Belajar ...................................................................................................................... 14
      b. Pembelajaran .......................................................................................................... 19
      c. Hasil Belajar ............................................................................................................ 21
      d. Pendidikan Jasmani .............................................................................................. 23
   2. Metode Mengajar dalam Pendidikan Jasmani ............................................................ 26
      a. Metode Mengajar Praktik Padat ........................................................................... 28
      b. Metode Mengajar Praktik Distribusi .................................................................... 29
      c. Perbedaan Metode Praktik Padat dan Distribusi .................................................. 30
   3. Permainan Bolavoli ...................................................................................................... 31
      a. Pembelajaran Permainan Bolavoli ....................................................................... 33
      b. Teknik Permainan Bolavoli ................................................................................... 36
   4. Karakteristik Siswa SMAN 1 Tandun ......................................................................... 51
B. Kerangka Berpikir .......................................................................................................... 54
C. Hipotesis .......................................................................................................................... 65

BAB III PROSEDUR PENELITIAN
A. Metode Penelitian ......................................................................................................... 67
B. Desain Penelitian .......................................................................................................... 69
C. Populasi, Sampel, dan Lokasi Penelitian .................................................................... 73
D. Definisi Operasional Variabel ...................................................................................... 75
   1. Variabel Bebas .............................................................................................................. 77

Abdullah Salamun, 2012
Pengaruh Metode Mengajar Praktik Padat Dan Distribusi Terhadap Hasil Belajar Permainan Bolavoli
Universitas Pendidikan Indonesia | Repository.Upi.Edu
2. Variable Terikat ................................................................. 79
E. Instrumen Penelitian .......................................................... 79
1. Tes Teknik Dasar Permainan Bolavoli ............................... 80
2. Tes Keterampilan Bermain Bolavoli ................................. 85
F. Analisis Uji Coba Instrumen ............................................. 87
1. Uji Validitas Instrumen .................................................... 88
2. Uji Reliabilitas Instrumen ................................................. 92
G. Teknik Analisis Data ......................................................... 94
1. Uji Normalitas Data .......................................................... 94
2. Uji Homogenitas Data ..................................................... 96
3. Uji Dua Rata-Rata (t-Test) ................................................ 96
4. Uji Hipotesis ................................................................. 97

BAB IV HASIL PENELITIAN DAN PEMBAHASAN
A. Hasil Penelitian ............................................................... 99
1. Deskripsi Data ............................................................... 99
   a. Deskripsi Data Hasil Belajar Permainan Bolavoli ............ 100
   b. Deskripsi Data Selisih/Beda ...................................... 102
2. Uji Normalitas ............................................................... 104
   a. Hasil Uji Normalitas Data Hasil Belajar Permainan Bolavoli 105
   b. Hasil Uji Normalitas Data Selisih/Beda ..................... 107
3. Uji Homogenitas ............................................................ 108
   a. Hasil Uji Homogenitas Data Hasil Belajar Permainan Bolavoli 109
   b. Hasil Uji Homogenitas Data Selisih/Beda ................... 111
4. Hasil Pengujian Hipotesis ................................................ 113
   a. Hasil Uji Paired Samples t-test .................................. 113
   b. Hasil Uji Independent Samples t-test ......................... 116
B. Pembahasan ..................................................................... 119

BAB V KESIMPULAN DAN REKOMENDASI
A. Kesimpulan ................................................................... 125
B. Rekomendasi .................................................................. 125

DAFTAR PUSTAKA ................................................................. 128

LAMPIRAN-LAMPIRAN ........................................................ 132
