

ABSTRACT

This paper entitled *An Analysis of the Poetry Translation in the Novel Dead Poets Society by N.H. Kleinbaum* was aimed at analyzing the poetry translation methods used in translating poems in the novel and the quality of translation

This research used qualitative method by employing some techniques as follows: Reading and comparing both the original and the translated version of poetry and figure out methods used in translating poetry, distributing questionnaires to five reviewers in order to figure out the translation quality, collecting and analyzing the data of questionnaires to gain some findings and result.

The researcher found that Blank Verse was the most frequent methods used by the translator in translating poems in the novel. Besides, based judgments of reviewers, the quality of translated poetry were relatively good and communicative enough because they can get the message of poems and the dictions were understandable.
