

ABSTRAK

Upaya Peningkatan Mutu Sekolah melalui Pengawasan yang dilakukan oleh Kepala Sekolah dalam Meningkatkan Proses Belajar Mengajar

(Studi Kasus tentang Supervisi Kepala Sekolah dalam Meningkatkan Proses Belajar Mengajar di SDN Pajajaran Kecamatan Cicendo Kota Bandung)

Pendidikan merupakan salah satu indikator keberhasilan suatu negara untuk meningkatkan kualitas sumber dayanya. Bangsa Indonesia yang memiliki cita-cita tersebut dalam mencerdaskan kehidupan bangsa memiliki tanggung jawab besar terhadap pendidikan ini. Baik kualitas pendidikan akan sangat berpengaruh kepada pembangunan di masa mendatang.

Salah satunya yang sangat berperan adalah pendidikan sekolah dasar. Sekolah dasar yang berkualitas akan memperhatikan kualitas proses belajar mengajar siswa. Kualitas proses belajar mengajar (PBM) inilah yang menjadi tulang punggung bagi keberhasilan sekolah dalam meningkatkan mutu lulusannya.

Adapun teori-teori yang dijabarkan dalam penelitian ini adalah Konsep Administrasi Pendidikan, Konsep Supervisi Sekolah dalam Proses Belajar Mengajar, Kepala Sekolah Sebagai Supervisor Pengajaran, Pelaksanaan Supervisi Pengajaran Sekolah, Mutu Sekolah.

Penelitian ini menggunakan metode kualitatif dengan *purposive sampling* dan *snowball sampling*. Teknik utama pengumpulan data yang digunakan adalah wawancara yang didukung studi dokumentasi, observasi lapangan serta melalui penyebaran angket.

Proses belajar mengajar tidak dapat dipungkiri, bahwa sangat diperlukan perbaikan dan peningkatan. SDN Pajajaran yang tempatnya sangat strategis di tengah Kota Bandung diharapkan mampu bersaing ketingkat yang lebih baik. Melalui peningkatan PBM maka SDN Pajajaran akan menjadi harapan masyarakat dalam meningkatkan kualitas lulusan.

Pada kesimpulannya menerangkan bahwa perlu adanya peningkatan proses belajar mengajar (PBM) yang berkelanjutan dari pihak SDN Pajajaran agar dapat lebih meningkat dimasa mendatang. Hal ini disebabkan dimasa mendatang persaingan akan sumber daya manusia yang berkualitas sangat terasa. Oleh karena PBM adalah tulang punggung bagi keberhasilan sekolah dalam meningkatkan kualitas lulusan, maka perhatian yang cukup serius kearah sana harus menjadi program yang terpenting.

ABSTRACT

Increasing Effort of School Quality through Doing Supervision by Principal in Increasing the Teaching and Learning Process

(Case Study of Principal Supervision to Increase Teaching and Learning Process in Pajajaran Public Primary School, Submunicipality of Cicendo, Bandung City)

Education is a successful indicator of a nation to increase the quality of its human resources. The idea of Indonesia in developing of the mind of the nation has the big responsibility for education. The quality of education will have the strong influence for the national development in the future.

The level of educational system that has the very important role in the national development is the education of primary school. The qualified primary school will concern with the quality of student's teaching and learning process. The quality of teaching and learning process is the backbone (frame, scheme) of the school achievement in increasing its graduates' quality.

The frame of theories are described in the research are the concepts of educational administration, school supervision for teaching and learning process, the principal or head of school as a teaching supervisor, the implementation of teaching supervision in school, and the quality of school.

The research used the qualitative approach with the *purposive and snowball sampling* methods. The primary technique to collect data used in the research was interview, which were supported by the study of documentation, field observation and distribution of questionnaires.

The teaching and learning process is an undeniable process of education in school, and it requires the reform and increasing. The Pajajaran State Primary School that has the strategic place in the center of Bandung City is expected to have the ability of competition in order to achieve the better level of its teaching and learning process. By increasing the level of its teaching and learning process, it can be expected that Pajajaran State Primary School shall be the hope of community in increasing the quality of its graduates.

In the end, it can be concluded that it's required the sustainability increasing for teaching and learning process by the Principal of Pajajaran State Primary School in order to achieve the higher level in the future. The reason is the result of the need for the qualified human resources in recent and future competition. Because of teaching and learning process is the frame of the school successful to increase the quality of graduates, so that the serious concern for supervision of teaching and learning process must be the most important program.
