## PREFACE

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Alhamdulillah robbil a'lamiin, by the Grace of Allah Subhanahu Wataa'la, the writer has succeeded in completing this paper.

The title of this paper is "The Language Attitude of the Students of IAIN Sunan Gunung Djati Bandung towards English and Its Relationship to Their Academic Achievement!" It is an investigation on the English language attitude of students of the IAIN in the third grade or those who have studied in the IAIN for five to six semesters.

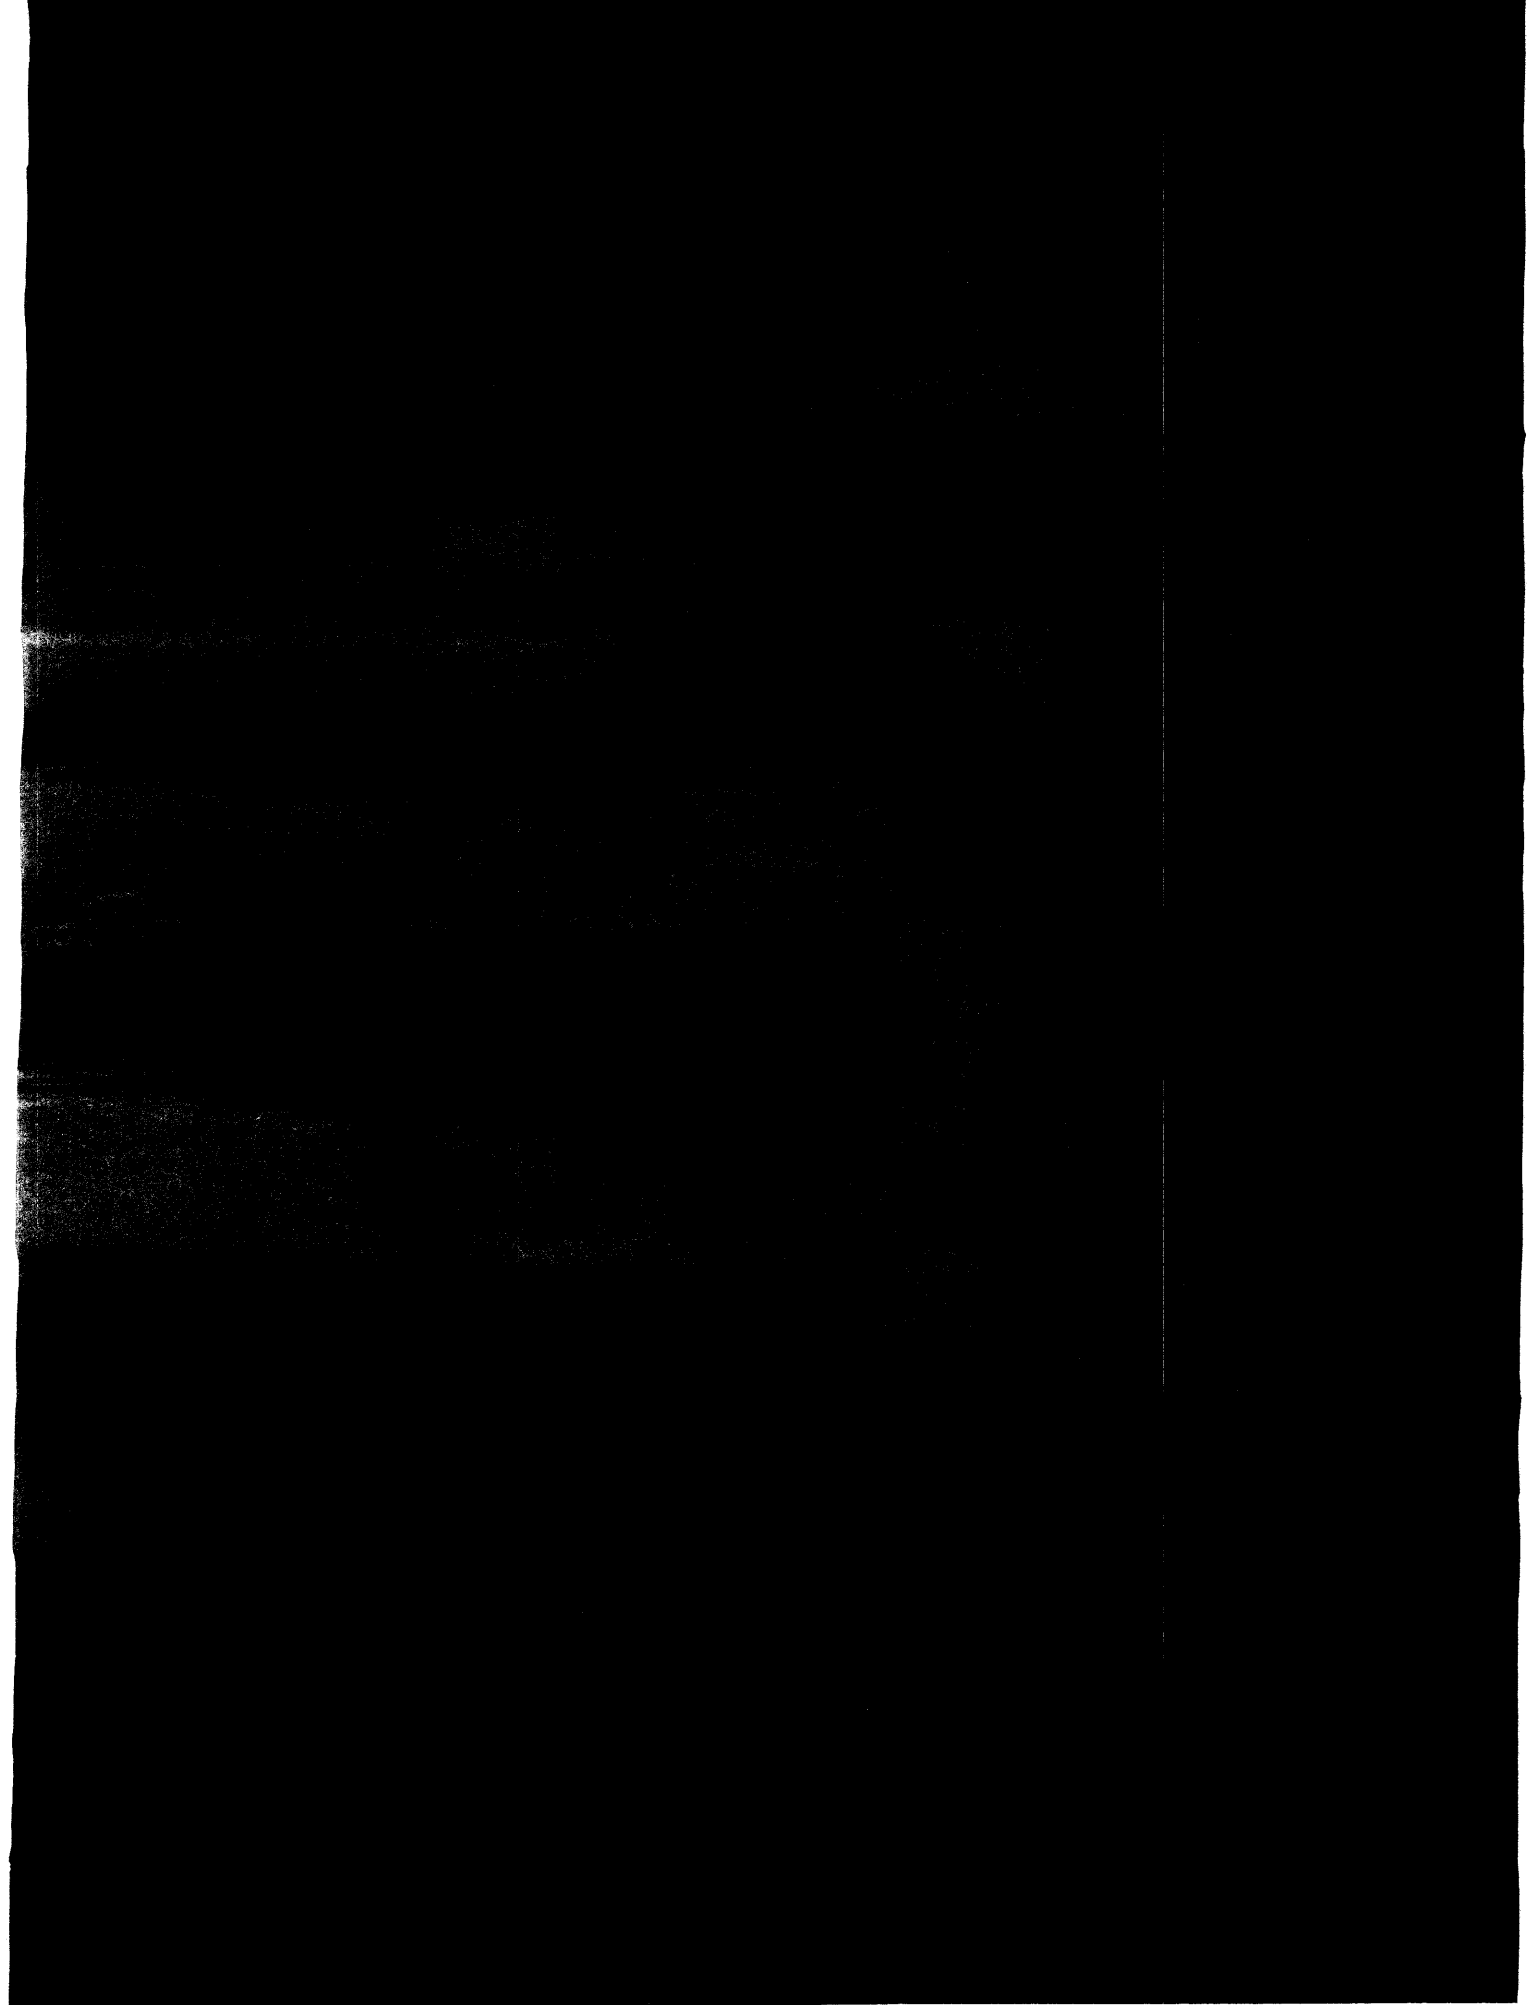

This paper is an attempt to study the language attitude based on the students' educational background and their programmes of study, the result of which is hoped to be some value in improving the English teaching and learning and in providing a slight information for those who are interested in elaborating further study.

The completion of this paper has terminated the writer's studies at the English Department. The writer realizes that this paper is still far from being perfect, there are still so many shortcomings inspite of having done her best. In this case, the writer always expects constructive and consultative criticism.

May this paper be useful particularly to the writer and generally to the readers.
