BAB II KAJIAN PUSTAKA
A. Praktik Kerja Industri Bidang Kriya Tekstil ................................................................. 7
  1. Tujuan Praktik Kerja Industri (Prakerin) .................................................................. 9
  2. Ruang Lingkup Praktik Kerja Industri .................................................................. 10
B. Materi Pembelajaran Prakerin .................................................................................... 13
   1. Teknik Pembuatan Kriya Tekstil .......................................................................... 14
      a. Desain Kriya Tekstil .................................................................................. 15
      b. Warna .......................................................................................................... 17
      c. Teknik Cetak Saring .................................................................................. 18
      d. Teknik Batik .............................................................................................. 19
      e. Teknik Makrame ...................................................................................... 24
      f. Teknik Jahit Perca/patchwork ................................................................. 27
   2. Penilaian Praktik Kerja Industri (Prakerin) ............................................................. 30
C. Kesiapan Berwirausaha di Bidang Kriya Tekstil ......................................................... 32
   1. Pengertian, prinsip, dan aspek kesiapan ............................................................... 32
   2. Berwirausaha di Bidang Kriya Tekstil ................................................................. 35
D. Hipotesis Penelitian ....................................................................................................... 43

BAB III METODE PENELITIAN
A. Lokasi, Populasi, dan Sampel Penelitian .................................................................... 44
B. Metode Penelitian .......................................................................................................... 44
C. Definisi Operasional ..................................................................................................... 45
D. Instrumen Penelitian ...................................................................................................... 47
E. Teknik Pengumpulan Data dan Teknik Pengolahan Data ....................................... 47
F. Uji Statistik .................................................................................................................... 48
BAB IV HASIL PENELITIAN DAN PEMBAHASAN PENELITIAN
A. Hasil Penelitian 
B. Pengujian Persyaratan Hipotesis 
C. Pembahasan Hasil Penelitian

BAB V KESIMPULAN DAN SARAN
