ABSTRAK .................................................................................................................. i
KATA PENGANTAR .................................................................................................... ii
UCAPAN TERIMA KASIH .......................................................................................... iii
DAFTAR ISI ................................................................................................................. vi
DAFTAR TABEL ........................................................................................................... x
DAFTAR GAMBAR ....................................................................................................... xii
DAFTAR BAGAN ......................................................................................................... xiii

BAB I PENDAHULUAN
  A. Latar Belakang Masalah ......................................................................................... 1
  B. Rumusan Masalah ................................................................................................. 7
  C. Tujuan Penelitian ................................................................................................... 8
  D. Manfaat Penelitian ................................................................................................. 9
  E. Definisi Operasional .............................................................................................. 10

BAB II PENGGUNAAN MULTIMEDIA INTERAKTIF PADA MODEL PEMBELAJARAN SAVI (SOMATIC, AUDITORY, VISUAL, INTELEKTUAL) DALAM MATA PELAJARAN TEKNOLOGI INFORMASI DAN KOMUNIKASI
  A. Belajar dan Pembelajaran .................................................................................... 12
  B. Hasil Belajar ......................................................................................................... 14
     1. Pengertian Hasil Belajar ................................................................................. 14

Yuren Sasiska Akmelia, 2013
Universitas Pendidikan Indonesia | repository.upi.edu
2. Klasifikasi Kemampuan Hasil Belajar ........................................................... 15
C. Model Pembelajaran ......................................................................................... 19
D. Model Pembelajaran SAVI ............................................................................. 20
  1. Pengertian .................................................................................................. 20
  2. Ciri-Ciri Pembelajaran SAVI .................................................................... 21
  3. Fungsi ....................................................................................................... 22
  4. Komponen .................................................................................................. 22
  5. Kaitan Model Pembelajaran SAVI dengan Mata Pelajaran TIK ............. 26
E. Media Pembelajaran ......................................................................................... 26
  1. Pengertian Media Pembelajaran ............................................................... 26
  2. Kegunaan Media Pembelajaran ............................................................... 27
  3. Multimedia Interaktif .................................................................................. 28
  4. Model Tutorial ............................................................................................ 30
    a. Pengertian Program Tutorial ............................................................... 30
    b. Tujuan Model Tutorial ........................................................................ 31
    c. Langkah-Langkah Model Tutorial ...................................................... 31
F. Hipotesis Penelitian ....................................................................................... 32

BAB III METODE PENELITIAN

A. Metode dan Desain Penelitian ................................................................. 35
  1. Metode Penelitian ..................................................................................... 35
  2. Desain Penelitan ....................................................................................... 36

B. Populasi dan Sampel Penelitian .............................................................. 37
1. Populasi Penelitian ................................................................. 37
2. Sampel Penelitian ................................................................. 37

C. Teknik Pengumpulan Data .................................................... 38
   1. Alat Pengumpul Data ......................................................... 38
   2. Tahapan Penyusunan ....................................................... 39

D. Pengembangan Instrumen .................................................... 40

E. Teknik Analisis Data ............................................................. 46

F. Prosedur Penelitian .............................................................. 50

BAB IV HASIL PENELITIAN DAN PEMBAHASAN

A. Hasil Ujicoba Instrumen ....................................................... 53
   1. Uji Validitas ........................................................................ 53
   2. Uji Reliabilitas .................................................................... 55
   3. Tingkat Kesukaran .............................................................. 56
   4. Daya Beda ......................................................................... 57

B. Deskripsi Hasil Penelitian ....................................................... 57
   1. Pelaksanaan Penelitian ....................................................... 57
   2. Data Hasil Penelitian .......................................................... 58

C. Pengujian Hipotesis .............................................................. 69
   1. Uji Normalitas ..................................................................... 69
   2. Uji Homogenitas ............................................................... 73
   3. Uji Hipotesis ...................................................................... 76

D. Pembahasan Hasil Penelitian .................................................. 84
1. Pembahasan Rumusan Masalah Pertama ........................................ 84
2. Pembahasan Rumusan Masalah Kedua ........................................ 85
3. Pembahasan Rumusan Masalah Ketiga ........................................ 87
4. Pembahasan Rumusan Masalah Umum ........................................ 88

E. Deskripsi Pelaksanaan Penggunaan Multimedia Interaktif melalui Model
Pembelajaran SAVI (Somatic, Auditory, Visual, Intelektual)............. 90

BAB V SIMPULAN DAN SARAN

A. Simpulan ..................................................................................... 93
B. Saran ......................................................................................... 95
